# Women of Bolivia Subject

Bolivian women lack the right of suffrage and only those of Spanish descent as a rule have educational opportunities which compare with those of women in the United States, Senor Raoul Valle-Rodas told the Salem woman's club at its Saturday afternoon meeting.

A Brazilian civil engineer, who in addition to his education in the homeland holds a degree from Princeton, Senor Valle explained to his capital city audience that womanhood in Brazil is, like Gaul, "divided into three parts." Indian women, he said, receive no education: the Mestizos require their children to attend school for six years, but even the upper class Spanish women cannot cast a vote.

More fortunate women of the USA should be more active in promoting the Good Neighbor policy, he suggested.

Mrs. Harris Leitz, accompanied by Mrs. R. A. Meyer, sang "Sylvia" by Speaks and "Four-Leaf Clover" by Coombs.

Legislation of interest to the club was reported upon by Mrs. George R. K. Moorhead, president of the state federation, during the business session over which Mrs. C. H. McCullah presided. Mrs. J. E. Kirk, sewing chairman, asked members to assist with Red Cross sewing which she would provide for them to take into their homes.

At the tea hour Mrs. W. S. Levens, assisted by Mrs. L. O. Arens, Mrs. L. M. Ramage, Mrs. Claude Murphy, Mrs. F. M. Lobdell and Mrs. A. L. Wallace, served. Mrs. Albert Gragg and Mrs. John L. Rand poured.

The tea table, covered with a white embroidered cloth, was centered with a bowl of spring flowers, flanked by red tapers and small flags.

This year their project is to learn to know and understand people of different races, creeds and social standing in their own towns. The girls are working out many ways of filling the requirements and are finding that there are many interesting people from foreign countries available for meetings, many institutions to visit, are having fun visiting with other groups in the city, and are making recommendations for "Youth's Recommendations for the Neighborhoods of the Future."
