The Oregon Statesman — Telephone 9101

**Professor Clark Speaker**—"How Oregon Came to Be Seismic" is the title of the lecture Prof. Herman Clark of Willamette university is to deliver at tonight's regular monthly meeting of the Salem Geological society in room 124, Collins hall, on the Willamette university campus. The meeting, which starts at 8 o'clock, will be open to the interested public. An over-all picture of the geological history of the entire state will be presented, which is to serve as a framework into which may be fitted the more detailed and local features of future studies. Purpose of Professor Clark's address tonight is to treat Oregon's varied scenery as the result of forces and processes that have been working through the ages, constantly modifying and changing the surface of the earth until there have been formed the features seen today.

## Students May Obtain Merit System Jobs

The state merit system council, under its program of continuous recruitment, is making possible immediate employment of high school and college students upon graduation this spring. Examinations probably will be given April 14 for the clerical, casework, and telephone operator positions in the state unemployment compensation commission, public welfare commissions, state and county boards of health, and the crippled children's division of the University of Oregon Medical school. Prospective graduates will be admitted if otherwise qualified. Appointments can be made to successful applicants immediately upon graduation.

Also included in this series will be an examination for administrative secretary, which requires high school graduation and five years of stenographic experience.

Appointments under the merit system include tenure, paid vacation, sick leave periods, and protected employment. Career service is encouraged by profusion within the agency for satisfactory employees. These positions with the state provide safeguards for the employee in preparing for a substantial and responsible career.

To be included in this examination, applications must be received by the merit system council by March 31. Detailed information can be obtained by writing Prof. William Griffith, 614 Mead building, Portland 4, Oregon.

## FFA Meet Set For Portland

The 1945 state convention of the Future Farmers of America will be held in Portland March 29 and 30, with chapters limited to one delegate each. Earl Cooley, state supervisor of agriculture education, announced here Wednesday.

The state executive committee will meet March 27 and 28 to complete plans for the convention. Officers who will participate in the meeting include Reed Voldsted, president, Albany; Don Tykenson, secretary, Newberg; Kenneth Logan, treasurer, Hillsboro, and Delbert Pratt, reporter, Enterprise.

HELP BUILD FOR VICTORY

**The "Talking Fence"**

You're rolling along through mountainous western country. Suddenly your train stops. Ahead—a signal light has turned red. The "talking fence" has flashed its warning to the engineer.

Technically known as the "slide detector fence", it is erected parallel to Union Pacific tracks as a protection against falling rocks, trees or other possible obstructions. Any such object striking the fence breaks an electrical contact, "setting up" signals miles down the track to warn trains approaching in either direction. A trainman must then make a thorough inspection before trains can proceed.

Union Pacific uses every possible precaution to safeguard its passengers and freight... troops and war materials... transported over its Strategic Middle Route uniting the East with the Pacific Coast.

The "talking fence" is but one of the many safety devices developed by our nation's railroads. Such improvements result from enterprise and initiative; characteristic American traits that built the Union Pacific... that built Your America, land of equal opportunity for all.

★ Listen to "YOUR AMERICA" radio program on Mutual nationwide network every Sunday afternoon. Consult your local newspaper for the time and station.
