Jellison Rites Held on Friday

ALBANY — Funeral services for Ordo Jellison, who lost his life at his farm home on route two, Albany, Tuesday morning while blasting stumps, were held Friday. Burial was in Willamette Memorial Park. Frank M. Walker conducted the services.

Jellison was born in Major county, Okla., July 18, 1907, and lived in Oklahoma and California before coming to Oregon 17 years ago. A farmer and carpenter by occupation, Mr. Jellison was a member of the Church of God.

He married Eunice Brown, who survives, in 1930. Survivors are four children, Otis, Paul, John and Ruth, all at home; a brother, PFC J. T. Jellison of the U.S. army; and four sisters, Mrs. Vina Miles of Carothers, Calif., Mrs. Sylvia Turcott of route two, Albany, Mrs. Evelyn McRain of Culver, and Mrs. Nila Yates of Spokane.

Would Fire WRA Men Bringing Japs Back to Gresham

GRESHAM, March 16 (AP)—Names of two more war relocation authority officials were added today to the list whose dismissals are asked by a farmers' group opposing resettlement of Japanese in Oregon.

The Oregon Property Owners Protective league said Harold S. Fister, northwest area WRA supervisor, and C. W. Linville, Portland WRA supervisor of evacuee property, "discriminated against interests of the American farmers in areas where Japs have been allowed to resettle."

ON the HOME FRONT

By ISABEL CHILDS

"I wouldn't be seen in anything there!" she said emphatically as she stalked by the windowful of decollete frocks.

—V—

Wrong again, lady. You would. Too much of you.

West Salem Grange Plans Dutch Sale

WEST SALEM — The grange will meet Tuesday night, March 20 at 8 o'clock in the West Salem city hall. An open meeting will be held. Rev. Raynor Smith will be guest speaker and will show a moving picture.

The program will be in charge of Fern Morgan. A Dutch auction will be held with pies, flower bulbs and plants to be supplied by the grange members. Proceeds will go to the Red Cross. The public is invited.

Firemen Reach Fire, No Equipment; Return To Get It, No Damage

SILVERTON, March 16 — The volunteer fire department turned up at the E. P. McNeer home chimney fire early Friday morning minus equipment. Firemen from homes and downtown sections went to the fire speedily in their own cars. The fireman who usually is at the city hall to bring out the truck was on other business when the alarm sounded. However, a fireman was located and the truck arrived in time with equipment to prevent damage to the home.

Teachers Offered Contracts — The Scio school board voted to offer all members of the staff contracts for the coming year. It is understood E. G. Rickard, principal, and Mrs. Rickard, a member of the high school staff, will not return next year.

Valley Obituaries

JOHN BUCHNER
ALBANY—John Buchner who died at the family home in the Tallman district Monday had been a resident of Oregon for 67 years. Funeral services were held March 14 from the Fortmiller chapel, with burial in Riverside.

Born on August 10, 1858, near Waukesha, Wis., he in company with his parents, brothers and sisters, came to San Francisco, and from there to Portland by steamer in October, 1877. The first year of their residence in Oregon they lived near Salem and then settled on a farm in the Millersburg community. In 1885 John and two of his brothers moved to a farm near Albany, and in 1889 moved to a farm near Spicer.

It was after moving to this latter farm that he became acquainted with Seneca Ellen Hardman and they were married June 13, 1894. In 1907 Mr. and Mrs. Buchner moved to the farm on which he died. In early life Mr. Buchner was baptized in the Evangelical church.

Surviving are the widow, a daughter, Velma Bohlen, twin sons, Merle and Mertice, three grandchildren and one great grandchild. A brother, E. S. Buchner, and a sister, Miss Clara Buchner, both of Albany, also survive.

Firemen Reach Fire, No Equipment; Return To Get It, No Damage

SILVERTON, March 16 — The volunteer fire department turned up at the E. P. McNeer home chimney fire early Friday morning minus equipment. Firemen from homes and downtown sections went to the fire speedily in their own cars. The fireman who usually is at the city hall to bring out the truck was on other business when the alarm sounded. However, a fireman was located and the truck arrived in time with equipment to prevent damage to the home.

Rickey Garden Club to Meet

FOUR CORNERS—The Rickey Garden club met Wednesday with Mrs. Jess McInley of Mahrt avenue. A short business meeting was held, and the time spent sewing wool squares. Mrs. Merritt Nash presented a flower arrangement of daffodils and ivy.

Mrs. Roy Stewart, Mrs. Ruth Gentemann and Mrs. Frank South volunteered to act on the examining committee for the Campfire Girls. Mrs. Edgar Brattain and Mrs. R. Osborne are new members.

The next meeting will be with Mrs. Russell Millett, 1420 Court street, April 4.

Few Nurses Enlist As Draft in Doubt

WASHINGTON, March 16 (AP)—Enlistments in the army nurse corps have dropped off in the last month and especially since the house passed the nurse draft bill last week, Maj. Gen. Norman T. Kirk, surgeon general, said today.

Stressing the continuing need for voluntary recruitment to meet quotas, Kirk said in a statement that the draft legislation must still be passed by the senate and signed by the president before it becomes effective.

Boys Leave Fairview

State police reported two escapes from the Fairview home Thursday night—Johnnie Noakes, 17, and Kenneth Donaldson, 11. Both were believed to be in this vicinity.

Bread Enrichment Measure Killed

A bill providing that all flour should be enriched with vitamins, passed by both senate and house, was dead today after the house recalled it from the governor's office. Rep. Robert A. Bennett told the house that the bill had been found to include unconstitutional provisions.

Health Board Plan Buried

The house Friday passed a resolution to authorize the health board to make surveys of industrial plants on request of the state industrial accident commission. The move apparently meant the death of SB 89, still in committee, which would create a new state department of public health.

Rep. Manley Wilson, chairman of the house medicine, pharmacy and dentistry committee, explained that the resolution embraced the only new authority given the board in SB 89.

Veto of 1943 Bill Sustained

The house sustained 33 to 25 Friday Governor Earl Snell's veto of a 1943 session bill which would have increased to 75 per cent the personal property offset for corporation excise taxes. Motion to override the veto was made by Rep. Harvey Wells of Portland, who said that the bill would merely restore the personal property offset to the point at which it was prior to 1935.

Cooperation of Cities, Counties Approved

Gov. Earl Snell Friday signed a bill, by Sens. William Walsh and Coe McKenna, permitting counties and incorporated cities to contract with each other for the use of certain equipment to effect savings.

Other bills signed by Governor Snell Friday included SB 27, 172, 218, 248, 250, 268, 269 and HB 97, 300, 333, 411.

SB 172, by Newberry—relating to inheritance taxes.

SB 218, by agricultural committee—relating to agricultural, turf and vegetable seeds.

SB 248, by Cornett—relating to contributions deductible in computing taxable income.

SB 250, by Cornett—relating to contributions deductible in computing next taxable income.

SB 268, by Walsh—fixing the salaries of certain county officers of Curry county.

SB 269, by Walsh—fixing the salaries of certain county officers of Coos county, etc.

House Would Let State Have Inactive Accounts

The house passed 49 to 9 and sent to the senate Friday a bill (HB 459) which would require banks to turn over to the state land board bank deposits which have been inactive for a period of seven years. Rep. O. H. Bengston of Medford said the bill would make about \$100,000 available to the irreducible school fund.

Little Chance Of Income Tax Discount Now

The legislature apparently made it virtually certain Friday that there will not be any discounts or rebates of state personal income tax or corporation excise tax collected in 1946 and 1947. The discount was 75 per cent in 1944 and 30 per cent this year.

The senate passed three house bills increasing the property tax reduction "cushion," made up of surplus income tax revenues, from \$5,000,000 to \$15,000,000, and provide that if there is any income tax money left it shall go to the counties to cancel a \$10 per school child property levy.

The legislature previously approved an increase in the state school support fund, also made up of income tax revenues, from \$5,000,000 to \$8,000,000. This fund, which takes precedence over the future property tax reduction account, is distributed among school districts to cancel special levies for school purposes.

The assembly also has voted to place before the people at a special election June 22 a property tax of five mills for two years, which would raise \$10,000,000 if levied but which actually will be canceled by income tax surplus beyond the \$8,000,000 school support fund.

The \$10,000,000 would be divided, \$4,000,000 for buildings at institutions of higher learning, and \$6,000,000 for buildings at other state institutions.

But even if the voters reject the five-mill levy, income and corporation excise taxpayers may not expect a discount in the next two years. It was the purpose of the three bills sent to the governor Friday to impound the \$10,000,000, if not spent for buildings and prevent the tax commission from rebating it to the taxpayers as it would be required to do in July under the Walker plan of the 1943 session.

If the voters do approve the levy, there will not be enough to fill the \$15,000,000 future property tax reduction account, hence the \$10 county school levy will not be canceled from income revenues.

Civil Service Approved for State Workers

The senate Friday voted 17 to 12 for a civil service and merit system for state employees. The measure already has passed the house.

Approximately 1600 of the state's 7800 employees now are included in various types of civil service systems, some required by the federal government in exchange for financial aid.

The civil service bill (HB 294) exempts elected officials, heads of departments and professional workers such as lawyers and doctors. It would cover approximately 5600 workers.

Sen. Coe A. McKenna, Portland republican, said the civil service plan will not freeze any employee in his job. A worker may be discharged or transferred on any reasonable grounds, except political, religious or racial reasons, but has the right of appeal to the civil service board.

Examinations will not be given until one year after the end of the war. Employees hired since December 1, 1940, must earn permanent jobs through competitive examinations.

War veterans will be given a five per cent preference, or 10 per cent if disabled, in grading the examinations.

The civil service bill, requested by Gov. Earl Snell, in his message to the legislature, came from the ways and means committee with a \$10,000 appropriation, but without recommendation.

Appropriation May Exceed State Revenue

The joint ways and means committee was advised by the state budget division Friday that general fund appropriations to carry on state work the next biennium probably would exceed the fund's revenue by \$800,000.

Gov. Earl Snell, in the state budget, recommended general fund appropriations \$26,912,524.98 as against requested appropriations of \$30,173,565.48.

The salary allowance for the attorney general's office was increased \$3640, with a total appropriation slightly in excess of \$74,600.

A general appropriation of \$282,590 for the state agricultural department was approved, an increase of \$39,000 over the current biennium. The boost was "necessary because of a bill passed increasing the functions of the department."

Other appropriations for the agricultural department include \$3,000 for the apary division; \$8000 for cattle indemnity; \$26,000 for Bangs disease control; \$42,500 for predatory animal control; \$2830 for seed control; \$126,295 for the milk control board.

The Oregon state fair was allowed \$337,250, but this is not a direct appropriation.

Approval was given a requested appropriation of \$6000 to defray the expenses of the interim committee to continue a study of motor transportation taxation during the next biennium.

Uniform Pay For School Heads Killed

The senate Friday indefinitely postponed a house bill providing uniform salaries for county school superintendents.

Senator W. H. Strayer said passage of this measure virtually would repeal a large number of bills of the current legislative session involving county salary bills.

Similar action was taken in connection with another house bill increasing the salaries of court reporters.

Milk Grading Bills Approved In Senate Vote

The senate Friday passed two house bills to give the state director of agriculture authority to establish grades of milk.

House bill 371, passed by a vote of only 16 to 14, however, and Senator Frank Hilton, Portland republican, who voted for it, served notice that he would ask for reconsideration today.

The companion measure, HB 370, passed by a vote of 27 to 2.

Statewide Retirement System With Disability Benefits Wins Final Legislative Approval

A statewide system of retirement, disability and death benefits for public employees was approved by the senate 27 to 2 Friday and the house bill (HB 344) was sent to the governor. Senators Jones and Strayer opposed.

The measure culminates 30 years of effort on the part of state employees. Employees of the state and of the school system will be blanketed into the program without option. Municipalities and counties will come under the act unless the governing bodies elect not to be covered. Towns that employ fewer than five persons must elect to come under the act.

The bill carried an appropriation of \$50,000. Annual cost to the state and school systems has been estimated at \$1,629,000. Of this the state's self-sustaining agencies will bear \$514,769; general fund agencies \$414,827; and federal-aid agencies \$59,274 (a total of \$988,870) and the school system \$640,659.

Both Parties Contribute
Employees and the employing agency will contribute identical amounts to the fund.

Retirement age for most state employees will be 65, and after 30

years of service, with retirement benefits approximately one-half the average salary in the preceding five years. Police and firemen may retire at 60. Ordinary employees have the option of retiring at 60, and police and firemen at 55, but their benefits would be less. If agreeable to the employing agency, a worker could continue on the payroll after retirement age to build up a larger benefit payment.

Refund Provided For
If a public employee covered by the plan leaves his job in the first five years of employment, the money he contributed would be returned to him, but if he remained longer than 10 years his contribution would be retained in the fund and paid to him at retirement age, or to his heirs if he died before reaching that age.

The death benefit will be the amount the employee contributes to the fund, but not the contribution of the employing agency.

The Portland school district and some other agencies who now have a retirement and benefits plan, are not required to come under the state act, but may do so under a contract between the governing board and the state retirement board.

Former public employees who are in the armed services will be credited with all their military service time. The act will take effect on July 1, 1946.

Plan for Additional Circuit Judge Killed

The bill to add a fourth circuit judge for the 2nd judicial district (Coos, Curry, Douglas, Lane and Lincoln counties) was killed Friday when the senate judiciary committee agreed to send out another measure to provide that many of the duties of the Lane county judge shall go to the circuit court.

Bar to Alien Japanese on Land Passed

An anti-Japanese land law which originated in the senate, passed the house Friday with only two "no" votes. The bill (SB 274) is patterned on similar statutes in California and Washington and it is the result of complaints from white farmers that though barred by present law from owning land, Japanese aliens evade the law by placing title of the land in the name of a son or wife who is an American citizen by virtue of birth in this country.

The measure declares that in the event of leases, cropping agreements or any other agreements to use or cultivate land made in the name of the wife or child of an alien ineligible for citizenship, the alien cannot remain on the land, farm it or enjoy "directly or indirectly" the benefits of such cultivation.

Sports Fishing Bill Approved

The house bill (HB 378) to eliminate set nets from all coast streams and bays south of the Columbia, with exception of Tillamook bay and Salmon river, and to shorten drift net seasons, was approved Friday by the senate, 24 to 5, over opposition of senators from coast counties.

Equalization Bill For Rural School Districts Passed

The house approved school equalization bill (HB 80), which would be referred to the people in November, 1946, was passed 20 to 10 by the senate Friday.

The bill would create county-wide rural school districts, but would exclude first-class districts. Its main purpose is to equalize taxes, which would be accomplished by permitting the proposed districts to levy a single school tax.

The measure thus would force owners of considerable property, now located in school districts which don't levy taxes, to pay money into the school funds.

Voting against the bill were Sens. Burke, Carson, Ellis, Jones, Lampert, Moser, Strayer, Winslow, Zurcher, and President Belton.

Plan for Additional Circuit Judge Killed

The bill to add a fourth circuit judge for the 2nd judicial district (Coos, Curry, Douglas, Lane and Lincoln counties) was killed Friday when the senate judiciary committee agreed to send out another measure to provide that many of the duties of the Lane county judge shall go to the circuit court.

Bar to Alien Japanese on Land Passed

An anti-Japanese land law which originated in the senate, passed the house Friday with only two "no" votes. The bill (SB 274) is patterned on similar statutes in California and Washington and it is the result of complaints from white farmers that though barred by present law from owning land, Japanese aliens evade the law by placing title of the land in the name of a son or wife who is an American citizen by virtue of birth in this country.

The measure declares that in the event of leases, cropping agreements or any other agreements to use or cultivate land made in the name of the wife or child of an alien ineligible for citizenship, the alien cannot remain on the land, farm it or enjoy "directly or indirectly" the benefits of such cultivation.

VETERANS' GUIDE

WASHINGTON, March 16 (Special)—Already there is much misunderstanding about benefits for veterans. New rights, later developments, and more veterans by the millions will confuse the future before it becomes clear.

Anyone who reads the service men's readjustment law—now generally called the GI Bill of Rights—is likely to be become exhausted by his wrestle with its whereases, wordings, "provideds," "provided howevers," and "notwithstanding."

This probably accounts for several attempts to give ex-servicemen a helping hand by issuance of simplified booklets—digests of the benefits available to veterans. One of these is an official US government booklet issued by the "Retraining and Re-employment Administration, Office of War Mobilization." Even this government booklet admits that a large book would be needed to answer all the questions—and then might not be up-to-date when you got it.

Many GI Bill of Rights terms are as confusing as its terminology. For example: "readjustment allowances."

What's a readjustment allowance? It's just plain unemployment pay. How do you get it? The bill doesn't say—it just says you are entitled to it.

None of the benefits due you as a veteran will come to you. You must go after them. It's like that constitutional guarantee of the
