

Canned Goods Point Changes Slated Sunday

WASHINGTON, March 29 (AP)—New point values will be effective Sunday, April 1, for various processed foods, to lessen the demand for some products and increase the buying of others.

The new values follow:

Peas (No. 2 can) 30 points, up 10. (Value increased because movement into trade channels too rapid.)

Asparagus (No. 2 can) 20 points, up 10. (Increased because moving into consumer channels twice as fast as supplies will permit.)

Sweet cherries (No. 2 1/2 can) 40 points, down 20. (Supply slightly below last year, but moving into trade channels about 15 per cent slower than last year.)

Plums and prunes (No. 2 1/2 can) 20 points, down 10. (Good supply anticipated for this year, coupled with 18 per cent lag in normal movement into trade channels.)

Tomato juice (No. 2 can) 10 points, down 10; 49 ounce can 20 points, down 20. (Movement from packer and wholesaler levels for schedule.)

Thumbnail of War!

Western front — Thousands of nazis in wild flight between U. S. 1st army, which swept 55 miles to within 186 miles of Berlin, and British 2nd.

Russia — Red army races 20 miles across Hungary to Austrian frontier, cutting nazi supply line to Italy and pushing to within 43 miles of Vienna.

Pacific — Mighty British task force joins U. S. fleet in central Pacific for first time to blast southern Ryukyu islands.

Philippines — Yanks invade Mactan island, across from Cebu, second port of Philippines; also attack seaplane base of Cauit.

China — Japanese forces attacked from air as they march to within five miles of American air base at Laohokow.

Senate Fight On Manpower Bill Expected

WASHINGTON, March 29 (AP)—Two top-flight administration senators told President Roosevelt today the manpower control bill is in for "a real fight" in the senate.

Majority Leader Barkley and Senator Thomas (D-Utah), leader of senate forces backing the compromise bill, made no attempt to hide from the chief executive the obvious fact that the bill, passage of which he urged yesterday, is in a very shaky condition.

"We just reviewed the general situation with him, and I told him there was a real fight on," Barkley informed reporters.

Thomas said the two didn't go into details in their White House parley, but he reminded reporters he had always taken the stand that passage of a strict control bill was problematical.

U. S. Embassy, Moscow Takes 100-Room House

MOSCOW, March 29 (AP)—The ever-expanding United States embassy in Moscow is taking a 100-room mansion in the Arbat section of the Soviet capital to house more than 250 Americans connected with it.

Ambassador Averell Harriman and his daughter Kathleen will continue to live at Spasso house.

Albany Soldier Killed

First Sgt. Edgar L. Wilson, son of Ethel Schram, 821 South Geary st., route one, Albany, is listed by the war department today among men killed in action in Pacific regions.

Storm Clouds Ground Most Allied Planes

LONDON, March 29 (AP)—Driving through heavy storm clouds which kept virtually all other planes grounded, RAF Lancasters today bombarded a benzol plant near Brunswick in a blow aimed at stopping motor fuel supplied to the German army in the path of Field Marshal Montgomery's drive across northwestern Germany.

U. S. Eighth air force bombers remained on their fields in England during inclement weather and for the first time in 45 days planes of the U. S. Ninth air force were unable to make attacks on enemy targets from their advanced bases on the continent.

Today ended 20 straight days of operations by fighter-bombers of the Ninth, during which they flew 25,275 sorties with loss of 11 planes and played a major role in softening up the enemy for the allied armies' lunge across the Rhine.

Bad weather also shielded Germany last night and RAF mosquito bombers had to halt their methodical pounding of Berlin which had continued for 37 successive nights.

Babies' Shoes Will Require Ration Stamp

WASHINGTON, March 29 (AP)—Beginning May 1, all babies' leather shoes will require a ration stamp.

The OPA made this announcement today, simultaneously with a disclosure by the office of civilian requirements that it hoped to obtain the production of 150,000-200,000 pairs of high-quality fabric shoes with synthetic rubber soles for adults.

The OPA action puts babies' leather shoes, sizes 0 to 4 (worn by babies before they learn to walk) on the same basis as other leather shoes.

The idea, OPA explained, is to obtain greater production of larger sized babies' shoes, already under rationing.

Chaplain Baptizes Yank Engineer in Rhine

WITH THE U. S. NINTH ARMY, March 29 (AP)—Three days before the Ninth army jumped off in its Ruhr offensive a Protestant chaplain baptized a combat engineer in the Rhine river.

Before going into action, Pfc. Howard K. Sligar of Centralia, Ill., asked his chaplain to baptize him in some "running stream."

ON the HOME FRONT

By ISABEL CHILDS

"But there's something new afoot in leather, too—white leather; that is white all the way through, not just on the surface."

—Excerpt from recent advertisement.

Someone has apparently been making a study of high school and college girls' saddle shoes. We thought it out, long ago, and when ours were thoroughly scuffed, we just proceeded to remove the rest of the finish, and lo and behold, where there had been brown polish we found a whitish leather, and where the white had been was a dark shade. After that we just filed them down occasionally.

Italian Front Swept by Rain

ROME, March 29 (AP)—Troops along the Italian front remained locked in their months-old positions for another day as rain swept U. S. Fifth army lines and fog settled over the Apennine mountains below Bologna today.

Even the Allied air forces were prevented by the weather from making their usual attacks on enemy targets in southern Europe.

There were only a few clashes between opposing patrols, interspersed by artillery and mortar fire of varying intensity.

American gunners started a number of fires in the enemy defense area before Bologna, which the Germans have been strengthening for six months. British and French destroyers were reported to have shelled German positions in the north near the French-Italian border.

Attempts Made on Lives Of 2 Nazi Officials

LONDON, March 29 (AP)—The Luxembourg radio reported tonight that attempts had been made on the lives of SS leader Dr. Ernst Kaltenbrunner, No. 2 nazi under Himmler, and Baldur von Schirach, former Hitler youth chief and nazi leader in Vienna.

The attacks, the broadcast said, quoting "reliable Swiss sources," were made in anti-nazi clashes in Munich where Kaltenbrunner reportedly was seriously injured and in Vienna where von Schirach escaped unhurt as two of his companions were killed.

Marine, Coast Guard Heads To Be 4-Star

WASHINGTON, March 29 (AP)—Top officers of the marine corps and the coast guard were nominated today for four-star rank. Senate confirmation would make them the first to hold that grade in the history of either service.

They are Lt. Gen. Alexander A. Vandergrift, named to be a full general, and Vice Adm. Russell R. Waeche, to be an admiral.

At the same time President Roosevelt nominated three vice admirals — Richard S. Edwards, Henry K. Hewitt and Thomas C. Kinkaid — to be admirals for temporary service.

He also proposed boosting five rear admirals to vice admiral, four commodore to rear admiral, 20 captains to commodore, and six commodore who have held that rank by virtue of their assignments, to be commodore wherever they serve.

German Home Guard Troops Being Released

WITH THE U. S. NINTH ARMY, March 29 (AP)—Volksstrum (home guard) troops captured by the Ninth army are being released because of the crowded prisoner-of-war camps and the problem of having to feed starving enemy civilians in many of the larger German cities.

Goose Eggs Sell for 75 Cents Apiece

NEW YORK, March 29 (AP)—The goose that laid those golden eggs would have been a piker in New York today.

Ordinary goose eggs without a speck of gold in them were selling for 75 cents apiece — which would have amounted to \$9 a dozen if a dozen could have been found.

But dealers had only feathers and profits left after hundreds of shoppers acted on a tip from the New York mercantile exchange that goose eggs were nice for Easter.

Those who shopped early found goose eggs four times the size of a hen's product and already colored — cream, green or mottled. They also found that there is no ceiling price on goose eggs.

There weren't any chocolate eggs either.

Killer Discovered

PORTLAND, March 29 (AP)—The father of a 14-year-old boy voluntarily told police today his son wielded the bow and arrow which last night killed "Ginger," friendly Cocker spaniel. He stopped at the owner's home, where four children grieved for their pet, to make restitution.

Danzig's Fall Reported

NEW YORK, March 29 (AP)—A German broadcast reported tonight by the federal communications commission declared that the city of Danzig has "fallen into Soviet hands."

RAF Over Germany

LONDON, March 29 (AP)—The German radio warning service reported allied bombers over northwestern Germany tonight, indicating the RAF — which was grounded last night by weather — was continuing its offensive against the reich.

Thursday Warmest Day Here Since October 31

Weather bureau observers reported today that the 61 degree maximum temperature was the highest temperature recorded since October 31, 1944. Maximum temperature on that date was 61 degrees also.
