Easter... Season of Rising Hope

Easter spreads its mantle of spiritual blessing over the land, filling our hearts with new hope for the Victory and Peace which are inevitable, but which we must bring about with all possible speed; with a foundation which will insure its security; and with a working faith in our own ability to keep that Peace flourishing through the future. Your own place in the scheme of things may seem small—but it is important! For each of us makes up the entity which is this democratic nation.
