Heavy Selling Drops Grains, Barley Dives

CHICAGO, April 20—(AP)—Barley broke the five-cent limit today and other grain futures markets suffered important losses under selling that approached liquidation during the final hour.

Fractional recoveries were made when short covering and commission house support developed just before the close, but some wheat and rye deliveries were off nearly two cents at the finish.

Profit cashing and hedging were responsible for some of the losses and pit traders, influenced by increased grain receipts at terminal markets and favorable crop reports, were on the short side.

Hedge selling, particularly of July wheat, was credited to flour millers and was regarded as definite indication of further improvement in the supply of freight cars available for midwest grain shipments.

At the finish wheat was ⅞ higher to 1⅝ lower than yesterdays, close, May $1.72¼-⅜. Corn was up ¼ to off ¾, May $1.12⅝-¾. Oats were down ⅝ to 1⅛, May 63¾. Rye was off ⅞ to 1⅞, May $1.30¾-½. Barley was 4¾ to 5 lower, May 99½.

Stock Market Loses Ground

NEW YORK, April 20—(AP)—Selected stocks, paced by rails, moved into the recovery column today although top gains running to two or more points were reduced substantially or converted into minus signs for numerous market leaders at the close.

Earnings, dividends and continued hopes for constructive action by the new Washington regime served to keep bullish fires smouldering. Selling cropped up in the final hour, however, on the idea that the recent sharp jump to new 8-year peaks called for more of a technical correction.

Transfers of 1,130,000 shares compared with 1,680,000 yesterday. The Associated Press 60-stock average was off .1 of a point at 63.8.
