**"There's a telephone in the house where I am moving Can you connect it for me?"**

In normal times the answer would be: "Certainly! When would you like to have it done?"

We wish that we could give that answer today.

But there is a serious shortage of telephone facilities. Telephone factories and manpower have been producing almost entirely for war. Others, like you, are waiting for telephone service. That telephone in the house you are moving to may be already "spoken for" — by somebody who has been waiting longer.

We are sorry that the shortage in telephones, central office equipment, outside wires and other facilities causes inconvenience to anyone. We will do our best to take care of as many orders as possible.

Thanks for understanding.
