

Yank Planes Hit Jap Isles For Sixth Day

GUAM, Thursday, June 14.—(AP) Carrying the air attacks on Japan through the sixth straight day, Okinawa-based planes attacked Kanoya and Kuchira air bases on Kyushu Tuesday, a fleet communiqué reported today. Bombs and rockets were fired.

The Kanoya naval base was a target recently of carrier planes from Adm. William F. (Bull) Halsey's Third fleet.

The Tuesday raiders dove through intense anti-aircraft fire to accomplish their mission. The virtual around-the-clock raids on Japan has been maintained by B-29s, navy and army fighters.

Kyushu has air bases from which enemy suicide planes have been taking off to strike at American shipping off Okinawa.

Today's communiqué reported no enemy air activity at Okinawa Tuesday.

Okinawa-based planes also ranged south to hit the enemy-held Sakishima group in the Ryukyus, destroying two grounded planes.

Liberators and Privateers of fleet air wing 18, based at Okinawa, maintained the shipping blockade around Nippon's main island of Honshu Wednesday. They sank a small cargo ship and damaged smaller craft.

Seventh army air force Liberators hit Truk in the central Carolines Tuesday; fourth marine aircraft wing bombers attacked Yap, in the western Carolines, the day before; Liberators of the 11th army air force and planes of fleet air wing four raided the Kuriles and shipping offshore.

GOPs in Congress Demanding Investigation of Elliott's Loan

WASHINGTON, June 13.—(AP)—Calls for investigation of statements that a private loan of \$200,000 to Brig. Gen. Elliott Roosevelt was settled for \$4000 came today from republicans in both chambers of congress.

Rep. Knutson of Minnesota, ranking republican on the house ways and means committee, told reporters the internal revenue bureau should look into the tax reduction on a loss reported by John Hartford, president of the Atlantic and Pacific Tea company, who has confirmed that he was the lender.

Westbrook Pegler, columnist, yesterday published an account of the \$200,000 loan and subsequently Hartford declared that the Pegler account "is not the whole story but it is substantially correct." Caruthers Ewing, general counsel for the A. and P., said the loan was settled for \$4000.

Roosevelt could not be reached for comment, nor could Jesse Jones, former secretary of commerce, who Ewing said negotiated the settlement.

Ewing said in Danville, Ill., that the late President Roosevelt's son borrowed the \$200,000 in 1939 to finance his Texas radio interests.

In 1942, Ewing related, Jones told him that the Roosevelt family wished to compromise the debt. In exchange for Elliott Roosevelt's note and stock he had given as collateral, Ewing said Jones "gave me a check payable to John Hartford for \$4000 which was all Hartford ever received on the loan and the whole thing was closed."

Ewing said Hartford wrote off the loan as a "bad debt" in his 1942 income tax report.

Hartford expressed regret that the story had been published and said "I would not have made it public myself."

Pegler reported that Elliott Roosevelt telephoned his father at Warm Springs, Ga., after Hartford hesitated to make the loan on the basis that it might embarrass the president.

"The president spoke cordially to Mr. Hartford," Pegler wrote, "and thanked him for this favor to his son. He also invited Mr. Hartford to call on him."

Wallace Says Oregon Will Get New Deal

WASHINGTON, June 13.—(AP)—Oregon Democratic National Committee Chairman Wallace paused long enough today in his busy schedule of meetings with party leaders and administration officials to predict "Oregon is going to get a new deal—with capital letters."

Wallace said he has an appointment with President Truman at the White House tomorrow at 12:15 EWT. His visiting list today included interior aide Abe Fortas and Assistant Attorney General James P. McGranery.

The Oregon party leader did not discuss his conversations earlier this week with National Chairman Robert Hannegan, Treasurer George Killian and Publicity Chief Sam O'Neill, but said the meetings were "very satisfactory."

Selander, prominent Oregon artist and chief appraisal engineer for the state tax commission, sketched while he talked.

Politics Bring Sugar Woes Paulus Holds

YAKIMA, June 13.—(AP)—Charges and denials that administration played politics with the nation's dwindling sugar supply last year marked a house food investigating committee hearing today on the prospective production of canned foods this year.

Robert C. Paulus, of Salem, Ore., manager of the Northwest Pacific Cannery's association, injected the controversy with a statement that the administration liberalized sugar rations in 1944 "to sweeten up the public before the election."

The witness was protesting a reduced allotment of sugar this year for commercial fruit canning.

Chairman Clinton P. Anderson (D-NM), who will become secretary of agriculture and war food administrator next month, halted Paulus with a vigorous objection.

State Group Can't Regulate Power Rates

The state hydroelectric commission cannot regulate rates of the California-Oregon Power company even though it should grant the application of the company for permission to appropriate waters of the North Umpqua river to generate power, Attorney General George Neuner ruled Wednesday.

Neuner pointed out that since power would be pooled with power produced by other generating plants, it would be impossible for the hydroelectric commission to regulate rates on power from the proposed North Umpqua project. The public utilities commissioner would continue to regulate, he said.

However, the hydroelectric commission can provide for amortization and depreciation of the project by requiring that all surpluses be used to reduce the investment.

Issuance of stocks and bonds for the project would have to be controlled jointly by the public utilities commissioner and the hydroelectric commission, Neuner said.

Nazis, Japan Removed From World Trade

WASHINGTON, June 13.—(AP)—Secretary of the Treasury Morgenthau sees Germany and Japan as eliminated from the future world trade and viewed that as little loss to the American economy.

Neither nation ever amounted to much as a trader, Morgenthau told the senate banking committee, and what business they conducted can quickly be absorbed by others.

He voiced this opinion under questioning by Senator Taft (R-Ohio) as the committee opening two weeks of hearings into the Bretton Woods world financing plan.

The bill passed by the house sets up U. S. participation in a multi-billion dollar world bank and a fund to stabilize currency. Senate leaders forecast passage despite some opposition led by Taft.

Blaze Damages Spa Restaurant

Sparks from a plumber's blowtorch falling into paper boxes stored in the basement of the Spa restaurant and confectionery early Wednesday afternoon caused a fire which was quickly extinguished by city firemen.

Heavy smoke from the blaze did more damage to the establishment than either fire or water, Frank Brown, assistant manager, said.

The restaurant is regularly closed on Wednesdays. It will be open today, cleaned but will require repairs to fixtures and decorations, Brown said.

Income Tax Totals Double 1945 Receipts

Twice the amount collected during a similar period last year rolled into the state tax commission in Oregon income tax payments during the first five months of 1945. Payments totaled \$13,221,683, the commission reported Wednesday.

The increase was largely accounted for by the fact that the 30 per cent discount was less than half that permitted last year.

Individuals had paid \$10,275,401 and corporations \$2,901,002 up to May 31 of this year. During the first five months of last year, totals were \$4,478,055 from individuals and \$2,346,832 from corporations.

Approximately 300,000 taxable returns have been filed this year, slightly more than in the similar period of 1944. Unpaid current installments totaled \$3,172,187, compared with \$1,311,130 a year ago.
