Grading for Cherries Due On Thursday

Oregon standards for sweet cherries, for both brining and canning, will go into effect Thursday, the state agricultural department announced here Wednesday.

These grades are permissive and are the first official grades set up for Oregon cherries. The new grades, set up on a temporary basis, will expire December 31, this year. They will be used during this period on a trial basis and any changes found advisable will be incorporated later into permanent grades. The order, effective June 21, sets up one grade, Oregon No. 1, for sweet cherries and brining and throws all cherries not meeting the requirements of No. 1's into Oregon unclassified.

Two grades, Oregon No. 1 and No. 2, are set up for sweet cherries for canning, with all others to be recognized as Oregon unclassified.

Any grower or processor may obtain a copy of the complete order from the plant industry division of the state agricultural department.

Rye Tumbles; Grain Futures Off Sharply

CHICAGO, June 20.–(AP)–Rye tumbled from 3⅛ to five cents, the limit, today and other grain futures markets finished sharply lower.

Heavy profit cashing and a steady stream of commission house selling orders affected prices at the start and all attempts at minor rallies brought out increased offerings. Many closing quotations were new lows for the day.

At the finish wheat was 1¾ to 2⅝ lower than yesterday's close, July $1.68¾. Corn was unchanged to off ⅞, December $1.17¼. Oats were down 1 to 1¾, July 68. Rye was 3⅛ to 5 lower, July $1.-54-1.54⅛. Barley was down 3¾ to 4½, July $1.14½.

Four Oregon Quarantines Are Altered Friday

Changes in four Oregon quarantines became effective Friday.

The Oriental fruit moth quarantine has been revised to include only the Idaho counties of Canyon and Owyhee and Jefferson county in Colorado, as these two states have set up intrastate quarantines to protect non-infested territory.

The Oregon cherry fruit fly quarantines, both intrastate and interstate, have been amended to include in the infested territory these areas: Asotin, Klickitat and Yakima counties in Washington; Nez Perce and Kootenai counties in Idaho; and Hood River and Wasco counties in Oregon.

The fourth revision is in the European corn borer quarantine and brings under quarantine as new territory the states of Kansas and Nebraska and three counties in Tennessee: Sumner, Robertson and Montgomery.

Fort Yukon, in Alaska, has a weather bureau record of 100 degrees in the shade and another record as the coldest place in Alaska, at 78 degrees below zero.

Rails Lead Rally Among Steel Issues

NEW YORK, June 20–(AP)–Rails resumed their recent buoyancy to lead a rally among steels, low-priced motors, utilities and oils in today's stock market although some favorite industrials went begging.

Carriers developed strength just before midday and several hit new highs for 1945 or longer, including Colorado & Southern 1s and 2nd Preferred, Southern Pacific and Union Pacific. Santa Fe closed at 99⅞, a peak since 1931.

Buying was attributed to the investment of idle funds.
