ONE FINE DIAMOND
says more than a thousand words

The Chinese have a saying that "one picture is worth a thousand words." Be that as it may, this much is certain: One fine diamond bespeaks your love for "her" more eloquently than all the words in Mr. Webster's dictionary. When words fail... say it with diamonds, chosen from our splendid selection.

BE SURE TO VOTE

FRIDAY—JUNE 22—SPECIAL ELECTION

BE SURE TO VOTE

503 X NO!

VOTE AGAINST THE Salem Electric Franchise

Avoid Unnecessary Duplication
There is no surer way to increase taxes than to vote for unnecessary duplication of electric service. All recognized authorities, including Bonneville administrators and Public Utility Commissioners, agree that duplicated electric power facilities are an economic waste and usually result in higher rates to the consumer.

Keep Reliable Service
Uninterrupted delivery is the most important factor in electric service. It demands ample reserve equipment, engineering "know-how." PGE has a record of over 35 years of reliable electric service in Salem. PGE does not depend on only one—it has three sources of power in Salem.

Keep Rates Low
PGE has distributed Bonneville power since 1939. For the past 35 years PGE has consistently reduced its rates. They are among the very lowest in the United States.

Keep Regulated Rates
Salem Electric rates are not under the jurisdiction of the Public Utilities Commission or any regulatory body as are the rates of PGE. Salem Electric can raise its rates at will; indeed, it did so in January, 1943.
