Spanish Not Surprised at Potsdam Slap

MADRID, Aug. 2.-(P)-The few Spanish officials reachable tonight said they were not surprised at the Petsdam conference slan at the Franco regime but they de-clined public discussion.

"If there is anything to say, Foreign Minister Martin Artajo will issue a communique," they

Artajo was not available at midnight when the report of the Potsdam pact reached here. He is scheduled to leave Monday for the "summer foreign office" at San Sebastian where foreign diplomats accredited to Spain airesdy have gathered.

Observers here believe the Franco regime is concerned main-ly over the possibility that the Potsdam statement may be followed by withdrawal of British and United States -ambassadors and the severance of commercial relations, including army purchases in Spain.

Franco was at his summer home. Pazo de Merias, Galicia; in extreme northwest Spain. Minor officials doubted that he would make any statement for several

Mining Engineer Dies

PORTLAND, Ore., Aug. 2-(P)-Frank Whaley Watson, former of the American Institute of Engineers and widely known in the northwest, died today after a long illness.

A former president of Portland Vegetable Oil Mills, he recently was employed by the maritime commission at Oregon shipyard. His widow, Blanche, survives.

Wheat Harvest Is Underway

PORTLAND, Aug. 2 .- (A)-Harvest of winter grain made good headway in Oregon last week, the weekly crop-weather survey said today, but heat and drouth cut the yield somewhat.

Some early spring grain was harvested. Irrigated corn was developing on schedule and some unirrigated fields looked promis-

No rainfall was reported for the week. Weather was warm, with the mercury in the nineties until the end of the week and a few spots reaching 100 degrees or more. At the close, temperatures fell to the thirties in eastern parts of the state, where some readings near freezing were recorded.

Buyer demand for apricots is hampered by the sugar shortage, but this fruit has been moving to market along with early peaches and apples.

Strike Totals Climb Above 45,000 Again

The nation's idle labor total crept past 45,000 again yesterday, the highest mark in a week, with about two-fifths of those off their jobs belonging to strategic metal working industries

Nearly 1375 open hearth work-ers renewed a walkout begun a week ago at the Republic Steel corporation, Cleveland, Ohio, to enforce a "fullcrew" demand.

All departments of the Youngs-town, Ohio, Sheet and Tube com-pany were closed except the coke ovens in a walkout of 32 main-tenance employes which idled 1300 persons in a dispute over a change in a line shift.

WASHINGTON, Aug. 2.-(P)-C. J. Potter, deputy solid fuels administrator, said tonight that "Mine strikes have cost us over 12,000,000 tons of coal since April 1."

"That is twice the amount of American coal necessary to give Europe a fighting chance for permanent peace," he added, "and, now, continuing wildcat strikes are costing a million tons per month."

Col. Brooks to Command Potter spoke in a program the American Broadcasting sys-

The property new lies in a strictly residential

The commission's decision followed a public hearing Thursday night at which no opponents to the change appeared. A petition protesting such a change, carrying 15 signatures of property owners in the neighborhood had been filed. but before last night's session, five of the signers had asked that their names be withdrawn.

Planners and zoners also decided Thursday night to recommend a change of zones to permit W. W. Haskins to operate a business at 1197 Chemeketa st.

Turkey Feed Shortage Felt

PORTLAND, Aug. 2.-(A)-Expansion of Oregon's turkey in-dustry has forced some feed mills to refuse supply contracts with producers, Leon S. Jackson, secretary of the Oregon Feed & Seed Dealers association, said today,

He blamed most of the trouble on growers who failed to arrange for feed before ordering young birds. Jackson warned that some producers may have to finish their turkeys on wheat or liquidate them as fryers.

One feed agent estimated this year's crop at 20 per cent above last year's 2,084,000 brids.
