# Stocks Down As Wartime Profits Vanish

**NEW YORK, Aug. 20 (AP)**—Stocks, bonds and commodities were thrown for further substantial losses in today's markets as bearishness over vanishing wartime profits inspired liquidation.

The stock division displayed recovery inclinations in the forenoon with rails and selected industrials negotiating an encouraging comeback. Bidding was timid, however, and the tide turned after midday. Volume picked up when carriers and stells resumed the retreat and, while extreme recessions were trimmed here and there at the close, declines running to two or more points were widespread.

Although some analysts thought the list had been overold—the morning advance was predicated partly on belief many industries would have hard sledding for a number of months. Heavy unemployment envisaged in the interim served to discourage bidders.

The Associated Press 60-stock composite was off 8 of a point at 63.2, a low mark since mid-April. The market was relatively broad, 939 issues appearing. Of these, 660 were down, 134 up and 145 unchanged. Transfers totalled 1,230,000 shares compared with 1,210,000 last Friday.

# Fresh Apples Top Price Up

**WASHINGTON, Aug. 20 (AP)**—Ceiling prices of fresh apples have been increased by the OPA for the period beginning today and ending September 30.

For apples grown in Washington, Oregon, California, Montana and Idaho, ceiling prices f.o.b. the shipping point have been raised 44 cents a box (45 pounds), \$1.32 a barrel (135 pounds) and about one cent a pound over last season's prices.

The new ceilings: box, \$3.19; barrel, \$9.57, pound, 7.09 cents. The increases were mandatory, the agency said, under a provision of the stabilization extension act which provides for higher prices when yields are substantially reduced by unfavorable growing conditions.

# State Milk Distributors' Limitations Relaxed

Oregon milk distributors are released from the limitations of Order 79 which placed a quota upon the amount of butterfat allowable in milk available for the fluid trade, the federal production and marketing administration Monday wired Director of Agriculture E. L. Peterson.

The wire, signed by Wm. C. Weiden, said quotas were suspended August 20 by Secretary of Agriculture Clinton P. Anderson but that record keeping and reporting provisions of Order 79 are still in effect. The quota suspension order is announced as effective as of August 1.

# Grain Attempts To Rise Over Early Losses

**CHICAGO, Aug. 20 (AP)**—Grain futures attempted further recovery today, but ran into increased selling as the session progressed. Wheat lost fractions, corn almost a cent a bushel, oats a cent, rye as much as 3/4 cents, and barley as much as 3/4 cents.

Weakness in New York cotton and stocks was a factor in the selling movement. There also was increased hedge selling in both wheat and oats, and demand in all grains still was limited due to uncertainty over future price trends following the Japanese surrender.

Receipts of oats were large today, and the harvest is under way in spring wheat in the northwest. This led to hedging operations in both pits. Government support was a factor in the early firmness in wheat and oats. The commodity credit corporation has been buying both grains for export, it was reported. Wheat closed 1/4 to 3/4 lower than the previous finish, September \$1.62 1/2, corn was 1/4 to 3/4 down, December \$1.13 1/4, oats were off 1/4 to 1 cent, September 56 1/2, rye was 1/2 to 2/4 cents lower, September \$1.35 1/4, and barley was off 1 to 3/4 cents, September 98 1/4.

**MULTNOMAH FAIR OPENS**  
**GRESHAM, Aug. 20 (AP)**—Record crowds were predicted by officials today as the 39th annual Multnomah county fair opened its gates. Livestockmen will vie for \$15,000 in premiums. Queen Boylen of the Pendleton roundup was today's guest.

**STARTS BUILDING**  
**SPRINGFIELD, Aug. 20 (AP)**—Cascade Lumber Terminal Inc. will begin construction of a \$100,000 plant here soon, officials said today.

# Portland Grain Shows Decline

**PORTLAND, Aug. 20 (AP)**—Peace news brought little reaction in the Portland grain market during the week ending Aug. 17, but new crop pressure caused a decline in future prices, the U.S. department of agriculture said today in its weekly report.

Bid prices dropped 1 to 2 cents a bushel from a week ago after at Puget Sound and Columbia river terminals dropped to 671 cars. Wheat demand, trading and movement was slow, and oats and barley showed a slightly weaker tone.

An important market development was announced by CCC that it was halting feed wheat sales.
