## Church Votes Consolidation At Conference

The Oregon - Washington conference of the United Brethren church has approved union with the Evangelical church. The approval was voted at the denomination meeting which has just closed at Trestle Glen camp. J. M. Goodheart was returned as pastor of the Englewood United Brethren church in Salem and was named district superintendent.

The general conferences of each denomination have approved the move and the vote is now being taken in the state conferences including the Oregon-Washington one which has just voted.

A popular vote of the membership will be taken next and when this is complete a meeting of the heads of the two bodies is provided for in the fall of 1946. Bishops of the two churches will form the Evangelical United Brethren church.

The general conference of the United Brethren church approved the union by a vote of 224 to 2, while the Oregon - Washington conference voted 34 to 6 for the union.

## Carlock Death Investigated

Coroner's deputies and state police Wednesday were investigating the death of Jay Carlock, an employe at the Peter Smith ranch near Gervais for the past five years. They said suicide was suspected.

When the Smiths returned to their home Tuesday night after an absence of several days they found Carlock dead in his cabin, where a fatal shot had been fired either Saturday or Sunday. No motive was known for the man taking his life as he had not complained of illness or despondency. The body was taken to Woodburn.

Almost 200 newspapers now maintain current and past files on microfilm.

## Members Plan Reception for New Pastor

Members and friends of the First Evangelical church will meet Thursday evening at the church for a reception for the Rev. and Mrs. Wilmer A. Brown, newly appointed pastor and his family. A farewell for Helen Bier, who has resigned as church secretary and parish visitor, will also be held at the same time.

The Rev. Brown served the Salem church as assistant minister in 1938 and 1939 when he was minister of music and director of youth activities. He comes to Salem from the First Evangelical church of Portland, where he has been for the last three years.

He has been prominent in the activities of the Washington and Oregon conference of the Evangelical church, and at present is director of music, a four year appointment.

Miss Bier completes five years of service as church secretary and parish visitor and is leaving to accept the position of dean of women at Cascade college in Portland.

**Checks Recovered**—Some of the checks stolen from the Broadway Market Sunday were in the hands of local police Wednesday. A 5-year-old child playing in an alley in the 700 block on D street discovered the checks under some bushes along the side of the alley. He gave them to his mother, who in turn notified the police. The checks were stolen along with a considerable sum of money from under the counter at the market.

# A New War-Born MOTOR OIL

now ready for cars of peace

RESEARCH FOR WAR discovered how to crack one of the toughest nuts in lubrication engineering history. Oxidation of motor oil! Oxidation attacks everything. It causes iron to rust, rubber to crack, clothing to fade. In motor oil it causes sludge—the thick sediment that forms in oil which is not only useless as a lubricant, but dangerous. Because sludge sticks to friction surfaces and prevents oil from getting in where it's needed.

So it's good news for cars of all ages that a way has been found to retard oxidation. This development of wartime research, now available to civilians, is New Golden Shell Motor Oil with oxidation inhibitor.

The inhibitor, added during manufacturing, keeps down the formation of sludge, keeps the oil rich in texture and free-flowing from one drain to the next. You owe it to your car—new or old—to protect the mileage left in it by using Golden Shell Motor Oil with oxidation inhibitor. Shell Oil Company, Incorporated.

Like oxidized paint—oxidized oil is no good

Paint, left exposed to the air, gets gummy, won't flow. The only oxidation inhibitor paint has is a tight-fitting lid. Motor oil in your car can't even have an air-tight lid. So to retard oxidation and its resulting evils of sludge, Shell adds a new development of wartime research—an oxidation inhibitor. Protect the mileage left in your engine by using New Golden Shell with oxidation inhibitor.
