### Stock Market Hits New Peaks

NEW YORK, Sept. 6-(AP)—The stock market took the president's message in stride today with leading industrials and utilities hitting peaks for the past eight years and rails rallying at the last.

Some buying was attributed to inflation interpretations placed on the chief executive's communication and to his predictions of a period of "unprecedented prosperity" if administration teamwork prevailed. The reference to "limited tax reductions" tended to put brakes on enthusiasm.

Transfers of 1,380,000 shares compared with 980,000 the day before and were the largest since Aug. 27.

The Associated Press 80-stock composite rose .8 of a point to 68.4, a top since May 8, 1937. The industrial average achieved a high since Aug. 31, 1937 and the utilities reached their best level since March 20, 1937. The rails, while up .9 of a point, still were about five points under their 1945 peak.

### South America Trade Planned

PORTLAND, Ore., Sept. 6-(AP)—Increasing South American imports may result in bi-monthly service between the Pacific coast and the southern continent's eastern coast, the Brazil manager of Moore-McCormack steamship lines said yesterday.

### Rain Aids in Plowing, Hop Crop Slowed

PORTLAND, Sept. 6-(AP)—Rain aided plowing and improved pastures in northwestern Oregon last week, but the rest of the state remained very dry, the weather bureau reported today.

Cutting of late crop hay, legume and grass seed made good progress and corn developed well. Harvesting of spring grain progressed. Rain which delayed hop

picking in the Willamette valley benefited late potatoes and fall truck crops. Picking of peaches and Bartlett pears progressed satisfactorily except in northwest counties where rain did some damage.

### Message Sends Grain Market Rallying Early

CHICAGO, Sept. 6-(AP)—Grain futures rallied today on President Truman's message to congress, but profit-taking caused reactions in most cases near the close.

September rye climbed more than 3 cents a bushel at one time to a new seasonal high of \$1.53 1/4, but profit-taking and selling induced by a reaction at Winnipeg caused prices to slump sharply and the close was mixed, with

nearby deliveries up and the deferred contracts down.

Wheat advanced about a cent a bushel at one time and closed up fractions. The rally was influenced by the president's recommendation for enactment of measures to strengthen machinery for price support of farm commodities.

Rye closed 1/2 higher to 1 cent lower than the previous finish, September \$1.51 1/4, wheat was 1/4 to 1/2 up, September \$1.65 1/4, corn was unchanged to 1/4 lower, December \$1.15, oats were 1/4 off to 1/2 up, September 58 1/2, and barley was up 1/4 to 1 1/4 cents, September \$1.09. Hedging pressure was light in
