Marines Opening Rolls to New and Old Leathernecks

Voluntary enlistments in the marine corps are now open to men between the ages of 17 and 25 who have had no previous service, and men between the ages of 17 and 32 with prior service who reenlist within one year of their discharge date.

Maj. Norris E. Lineweaver, officer in charge of marine corps recruiting in Portland, announced the new policy Thursday.

"They have really figured this thing to give the discharged veteran a break," the officer stated. "Marines who re-enlist within 90 days will be appointed the same temporary rank, with the same date of rank, held at the time of their discharge. In addition, if they re-enlist prior to 90 days from the date of discharge, the remainder of the 90-day period will be granted as a re-enlistment furlough.

"Men over 25 who have had no previous military service may be granted waivers in some cases," he continued.

Lineweaver pointed out that enlistments are no longer being accepted in the marine corps reserves. All voluntary enlistments will be for the regular marines.

The Portland recruiting office located in room 208, New U.S. Courthouse building, and the Salem recruiting office located in room 21, Breyman building, 180 N. Commercial st., are now ready to take enlistments from men of the above age groups.

FORT BENNING, Ga. (Special)—William Albert Vice of Salem, Ore., was commissioned a second lieutenant upon successful completion of the officer candidate course at the infantry school at Fort Benning, Ga. He is the son of Mr. and Mrs. L. M. Vice of route 7, box 250, Salem.

Army Enlistments Being Accepted

Maj. Gen. William E. Shedd, commanding general of ninth service command, Salt Lake City, Utah, has announced that effective immediately enlistments for the regular army are now authorized for physically qualified men between the ages of 18 to 34 years inclusive. Choice of arm or branch of service and overseas theater will be given.

United States army recruiting stations are now in operation at the post office building in Salem, Eugene and Klamath Falls.

First Lt. Sam Harbison is hospitalized on Luzon for the third time. He has an infection in feet and legs contracted while on duty in the south Pacific. He is stationed on Luzon with the 138th Infantry of the 33rd division.

Harbison's parents, Mr. and Mrs. John Harbison, and his wife and small daughter make their home in Salem.

European Vet In Command of 15th Battalion

CAMP ADAIR—(Special)—The 4th regiment's 15th battalion now has as its commanding officer a much-decorated veteran of the European theatre — Lt. Col. Frank K. Britton, who recently was released from an army hospital. He holds the silver star, bronze star medal with three clusters and other honors. He enlisted from Hartford, Conn., about 14 years ago.

This replacement depot now has an air force of its own—consisting of one Simson LSE, designed as an observation plane for field artillery, which was flown here from Oklahoma by Capt. A. M. Bach.

The first "superior instructor" rating in the depot went to Lt. Carl R. Thornbloom, hg. detch., 2nd reg., for his class in "Scrub Typhus Fever."

Pvt. Robert W. Lilla was back in the good odor of his company today after an unsuccessful skirmish with a skunk. Lilla was out on a compass problem, pacing off the designated steps, when his foot landed on something that was better left alone. Several showers and liberal use of GI soap were immediately necessary.

This week's issue of the AGF News gave a full page of pictures and information regarding the USO facilities at Eugene (within class A pass limits of the depot).

Nearly 100 WACs have signified their intentions of taking a trip to the firing range and seeing what it's like to fire a carbine.

B-4 was selected as the best company area in the 1st regiment, with C-3 second and B-2 third.

Selection was by a board of officers.

Commission Discusses Accepting Drydock

PORTLAND, Sept. 6—(P)—The Port of Portland commission said today it was not sure it wanted the 10,500-ton wooden drydock offered by the navy.

The commission, which had battled during the war for a larger steel drydock, said definite information on possible repair work to be allotted here is needed to determine whether a dock will be profitable.
