Your Doctor Won't ASK

9 Your Doctor would like to tell you that you have neither yourself nor him when you postpone seeking his professional counsel. But he cannot say this ethically. It might sound like a "bid" for business.

But we are saying it for him—emphatically. Call on your Doctor at the first indication of trouble. It may save much expense, to say nothing of needless worry and suffering later on; and let us cooperate by expertly filling any prescription he may give you.
