DOES CHEVRON SUPREME MAKE OLDER CARS RUN BETTER?

You bet it does! Now please don't expect even Chevron Supreme to make up for mechanical shortcomings, all any gasoline can do is bring out the best that's in a motor. You can certainly count on Chevron Supreme to do that.

Wartime research on Chevron Aviation Gasoline paved the way to a lot higher octane rating for Chevron Supreme. That means even older cars won't ping on hills. You'll see a difference in the way they start and accelerate on Chevron Supreme, too.

So, even though it isn't like putting a new engine under the hood, Chevron Supreme will give you the kind of performance you thought your car lost months ago. That old car may have to do for quite awhile yet so remember, it's

next best to a new car - driving on
