Approximately 425,000 workers idle as result of labor disputes; Monday crucial date in several work stoppages.

Major strike development:
Coal—Approximately 216,000 soft coal miners in six states expected to return to work Monday as result of John L. Lewis' decision to call off month-old strike.

Glass—Union spokesmen says breakdown in contract negotiations means strike of 15,000 glass workers in 10 cities "definitely expected" by Monday.

Telephone Services—Monday set as deadline for Western Electric company at Kearny, N.J., focal point of recent wage dispute, to meet union demands.

Public Utilities—Three-day work stoppage of 2000 Michigan power workers ended with ratification of settlement agreement by 14 of CIO union's 22 state locals.

Hotels—Strike of union elevator operators at Chicago's Palmer House is ended after nine hours, during which executives manned elevators; management-union conference results in wage increase to operators.

Shipping—Return of 35,000 stevedores from New York harbor after 18-day strike reported; shipping tied up at Houston, along Texas' central Gulf coast, as 1000 striking warehousemen joined in sympathy walkout by 2500 AFL longshoremen.

Rubber—Two-day stoppage which made idle more than 1500 employees of Seiberling Rubber company, Akron, O., ended when 75 striking maintenance and mechanical employees voted to end walkout, which stemmed from wage dispute.

Carpentry—Union votes to end two-week walkout of 4,000 Knoxville and Clinton, Tenn., engineers works carpenters pending decision of wage officials on 10 per cent wage increase.

Changes to Greet Returning Students at Willamette U.

Returning students, and veterans who have been absent for several years will be greeted by many improvements and changes in the buildings and living halls of Willamette university when they congregate on the campus this week for the opening of the new semester October 25.

Within a few hours after moved out of Lausanne Hall, largest women's dormitory on the campus, last Thursday a crew of 50 painters, carpenters, plumbers, electricians and floor men moved in to completely renovate the hall for re-occupancy by women students of the university, October 24. The six-day remodeling job should set some kind of local record for a building of its size, business manager Robert M. Fenix predicts.

When redecorated the dormitory rooms will be refurnished with complete furniture sets for 125 women in addition to new equipment in the living room and dining hall.

A cafeteria has been built in the spacious basement of the hall which will feed men and women from all other dormitories including local students and faculty members desiring to eat there. A recreation room adjoining the cafeteria is nearing completion.

The school of law which has been housed in the university library for the past two years while their quarters were being used by the administrative offices of the V-12 unit will re-occupy the law building across from the state supreme court shortly. During the summer the gymnasium, music hall, science building and library have been painted and renovated.

Army Board to Inquire Into Plane Crash

SPOKANE, Wash., Oct. 20.—(AP)—An army board of inquiry was named today to investigate a spectacular crash last night which killed the commanding general and deputy commander of Geiger field and three others aboard a C-45 transport plane.

The field went into mourning for Brig. Gen. Stuart C. Godfrey, 59, of Washington, D. C., base commander, described in a memorial as "the father of the aviation engineers," and for the deputy commander, Col. James W. Park, 35, of 1215 North Tacoma st., Tacoma, Wash.

The field had been in radio contact with the two-engine transport just before the crash and no trouble had been reported, public relations officers said.

Deputy Sheriff Lewis Johnson quoted farmers in the area as saying the plane crashed into a knoll a few hundred feet high and plunged into a gulch. The plane exploded as it crashed, Johnson said, scattering wreckage over 200 yards and setting several fires in wet brush and trees.

Lease Slated For Shipyard

PORTLAND, Ore., Oct. 20.—(AP)—Edgar F. Kaiser, general manager of the three Henry J. Kaiser yards in this area, said today the end of the war did not end the usefulness of war built Swan Island shipyard and that his company was negotiating for lease of the facilities.

H said he hoped leases with the U.S. maritime commission and the Port of Portland could be signed by January 1. The announcement was the first disclosure of definite plans by the Kaiser firm regarding any of the three war-built yards that once employed 90,000 men.

Christian Youth Rally Draws Crowd of 1400

Opening with a colorful display of the American flag, the fourth Youth for Christ Rally of the year, with Dr. Louis T. Talbot as guest speaker, was held in the Salem Senior high school auditorium last night. Approximately 1400 people were in attendance.

Dr. Talbot's message was preceded by special music featuring Sol Hoopii, Hawaiian guitarist playing the guitar.

Also highlighting the musical program was a cornet solo by Ray Odgaard of Seattle, a musical number by a girls' sextette, solos by John Jernison of California and Evelyn Slipswell of Lyons, Ore. Midway in the program a Bible quiz was held with those answering correctly receiving a book as a gift.

Dr. Talbot, who is the president of the Bible Institute of Los Angeles and pastor of the Church of the Open Door in that city gave the message, "If I were a Boy Again."

DeVern Fromke and Elmer Heibert, co-directors of the mass Young Peoples' meetings, said, "this was one of the most effective meetings we have had so far and it was only a sample of what is to come for the Youth for Christ audiences."

The next rally will be presented Nov. 3 with Dr. John A. MacArthur, speaker for the Fuller Evangelistic Foundation, as the main speaker. As yet no auditorium has been secured.

Students, Vets Join Pickets

HOLLYWOOD, Oct. 20.—(AP)—An estimated 1500 pickets, including many college students and some ex-servicemen, paraded before Warner Brothers studio today in a continuation of the motion picture strike, now in its eighth month. That was twice the previous maximum number.

After police announced that the picket line was out of bounds for military personnel, the veterans removed the insignia from their uniforms and continued parading without interference.

Meanwhile Eric Johnson, head of the motion picture producers and distributors, continued conferences in efforts to end the strike, which arose from a jurisdictional dispute between two AFL unions over control of studio set decorators.

Troop Train Car Derailed Near Aurora

AURORA, Ore., Oct. 20.—(AP)—No injuries were reported after a northbound Southern Pacific car full of military personnel was derailed here early today.

One pair of wheels slid off the rails. Railroad men worked to clear the track by noon.

Harold L. Shultz, Oswego, truck driver, said he could not avoid the car, approaching on the wrong side of the highway. The sheriff's office said Wood admitted falling asleep at the wheel.

Seguin Family Contributed 4 To War Effort

Life has been changing for members of the family of Mr. and Mrs. L. H. Seguin of Gervais. A few weeks ago four were in the army, one a prisoner of war, and soon only one will remain in service.

PFC Clarence Seguin, who enlisted in 1940, was taken prisoner at Corregidor. He wrote his family that he was in Yokohama and would soon be home. In his letter he mentioned his weight as 110 pounds and that he was gaining fast — 30 pounds in a month. The American food seemed to be one of the chief pleasures of being free.

He told of working in the copper mines, having to walk down 200 steps into the mine after reaching the hilltop where it was located. It snowed 20 days in a row at one time, he said.

Elders of the Seguin boys is Ray Seguin, formerly a private first class with the air corps and now living at 1390 3rd street, West Salem. He entered the service in 1942 and spent his entire time in the states. He was discharged Octo-

ber 1. Youngest is Anthony Seguin, who is also discharged. He served in England and Africa for two years. Flying home, it took only five days to come from Africa. He was a technical sergeant at the time of his discharge.

The fourth member of the family is Cpl. Clarence Seguin Gertrude Seguin, who has been a WAC for a year. She is stationed in New Mexico in the postoffice department.

CREDIT OFFERS YOU TERMS FOR NEW DENTAL PLATES

Pay As You Prefer In Weekly or Monthly Amounts With Accepted Credit

Dr. Painless Parker Says:

"Make your own terms, without reason, for new style transparent dentures. Select plates made with the improved material all dentists recommend for faithful reproduction. They are lighter, more lifelike. You pay as you wear them with Accepted Credit."

Plates of blended color harmonize with individual features

Matching color effects have been achieved with transparent material plates. Plates have a graceful design, a soft surface lustre and a resiliency that insures long-wearing efficiency. The tested balance of the material used in new style plates makes for durability. They not only look well, but wear well.

Crystal-Clear palate dental plates

They reflect actual mouth tissues. Care has been exercised to see that more realistic results are obtained in plates. The clear palate picks up the tissue tones and reflects them, making plates difficult to detect.

Translucent teeth for dental plates help your appearance

Science has perfected artificial teeth that simulate the effect of nature's own. Because they absorb and reflect light as do your present teeth, they add a live, vital effect to dentures. You can have translucent teeth in the shade, size and shape of human teeth. Ask for translucent teeth for plates.

Natural permanent color and natural permanent form characterize plates the dental profession is making with transparent material.

Protect your natural expression by replacing poor or missing teeth with dental plates

Unless restorations are made when teeth are lost, hollows occur in the cheeks, facial muscles sag and your profile is distorted. Only by visiting a dentist at frequent intervals can you avoid the risks of focal infection. Discomfort and illness follow quickly when teeth are neglected — and it is claimed many of the diseases in the nation result from dental defects.

Dentistry Whatever dental services you need.

Start dental work right away. Pay later. Budget cost of dental service with Accepted Credit. Make first dental visit without an appointment. Dental plates, fillings, inlays, crowns, bridgework, extractions. Plates repaired and relined.
