

Violence, Dead In Palestine Clashes Rise

JERUSALEM, Nov. 1.—(AP)—A sudden outburst of violence in Palestine early today paralyzed the country's railroad system, killed four or five persons and injured at least nine.

A British military communique blamed the attacks upon the Jews, but did not name any specific group.

A secret underground Jewish radio station, returning to the air after an absence of several days, reported the outbreaks without comment and announced the first communique of the Hebrew resistance group would be issued tomorrow.

It was estimated that it would take 48 to 72 hours to repair the damage to the transportation system, described as the most widespread act of organized sabotage in the country's history.

Maj. Gen. John D'Arcy, British commander in Palestine, immediately banned movement of all motor traffic on all highways between 10 p.m. and 6 a.m., except in municipal areas.

The attackers cut railway lines at approximately 50 places throughout the country, exploded one police launch in Jaffa port and seriously damaged two others anchored at Haifa. The vessels had been mined.

'Fugitive From Georgia Chain Gang' Freed

(Picture on page 1)

ATLANTA, Nov. 1.—(AP)—The long-time, celebrated fugitive from a Georgia chain gang, Robert Elliott Burns, surrendered today and two hours later, in tears, he heard himself pronounced a free man.

The three-member board of pardons and paroles wiped away the unserved part of a 6 to 10 year sentence for a \$5 stick-up that has hung over the now successful business man for 23 years.

It also restored civil and political rights to the twice-fugitive who aroused a storm of protest in Georgia over his book and movie, "I Am a Fugitive from a Georgia Chain Gang."

Tears streamed down the ruddy, bespectacled face of the slight, greying prisoner when the order was read.

"You will not be sorry," he told Chairman Edward B. Everett and other members of the board.

An hour before he had heard young Governor Ellis Arnall, whose administration wiped out the chain gang system which Burns wrote about so bitterly, plead his case.

"I have never appeared before this board with such a request," the governor said. "And I shall probably never do so again. But I am convinced this man is completely rehabilitated."

Alaskans for East Air Route Minus Seattle

WASHINGTON, Nov. 1.—(AP)—The interior department, the port of New York authority and the City of Fairbanks, Alaska, endorsed today a direct air route from Alaska to the industrial east.

Establishment of such a route, with Chicago and New York as the co-terminals in the United States, has been recommended by an examiner for the civil aeronautics board. Arguments on this recommendation, and on applications of others for Alaskan and Pacific air lines, are being heard by the board.

Wilbur La Roe, Jr., representing the New York port authority, argued that a route from the eastern United States to the orient should be as direct as conditions permit. The most direct route, he said, would run near the north pole, but the most feasible one would cross Alaska into Siberia.

La Roe and Norman C. Stines, a mining engineer representing Fairbanks, asserted that a route from Chicago and New York to Alaska by way of Seattle would be very circuitous.

"Seattle is no longer the sole gateway to Alaska," Stines insisted. He added that flying conditions across Canada will be immeasurably better than from Seattle up the west coast.

Sailor Returns Home to Abandoned Children

SEATTLE, Nov. 1.—John Patrick, 5, (left), Maureen, 3, and William, 18 months, greeted their father, John Walsh joyously Wednesday when he arrived to care for them after their mother's disappearance. The navy rushed him from Guam. (AP Wirephoto)

Advance Guard of 'Attack' Arrives; Bond Drive Grows

While the advance guard of the "Airborne Attack" show to be presented here Wednesday afternoon (story also page 1) work out details of the performance with Maj. C. H. Westover, army commander at McNary field, Marion county war finance workers continue their Victory Loan drive.

In Woodburn on Thursday night, Gene Vandeneysde, cities division chairman, found enthusiasm and an organization which he said is becoming more tightly knit day by day. If the entire county were organized in the fashion that Woodburn is pulling together behind the chairmanship of Miles Austin, he declared, the drive would be completed in a matter of days.

Lawrence Fisher, officer manager for Victory Loan headquarters here, and Jerry Nibler, Marion county agent, accompanied Vandeneysde to the Woodburn meeting, where Nibler showed two moving pictures.

Silverton High
Silverton on Thursday had reached nearly one-third of its \$150,000 quota, it was reported. Of the \$45,493.75 worth of bonds sold there, \$2493.75 were of the "E" series.

Woodburn's first sales have been nearly 50 per cent "E" bonds, while Mt. Angel has rolled up a similar record, it was said.

Women's club presidents and war service chairmen, meeting Thursday night with Mrs. Henry Kayser, woman's division chairman, set the ball rolling to attempt to get schools to close a few minutes early Wednesday if necessary so that boys and girls may get to McNary field in time to see all of the "Airborne Attack." The women also suggested that most merchants would be willing to cooperate by either shutting up shop for the hour of the main show or by letting most of their help attend, keeping only skeleton crews. Set for 3 P.M.

The show is scheduled for 3 p.m. An exhibition of the equipment to be used in it is planned from 1 to 2:30 p.m.

No matter what merchants may decide to do about Wednesday afternoon's colorful show, they are 100 per cent behind the Victory Loan campaign, Retail Division.

Carrier Saved From Junkpile

WASHINGTON, Nov. 1.—(AP)—The carrier Enterprise, "fighting-est ship in the fleet," was saved from the junk pile today and ordered preserved as a symbol of American valor.

Secretary of the Navy Forrestal wrote President Truman that it would grieve him sadly to sign the death warrant for the "galloping ghost of the Oahu coast," which is considered no longer suitable for combat.

Therefore, the president approved an order to preserve her as a national shrine, like the Constitution, the Constellation and other fighting ships. Where she will be berthed has not yet been decided.

Baruch Urges Conservation of U. S. Resources

WASHINGTON, Nov. 1.—(AP)—Bernard M. Baruch, adviser to presidents since Woodrow Wilson, urged today that America's own needs get "first priority" on American resources.

He proposed an inventory to see what can be spared for other countries. The 75-year-old financier coupled that advice with a recommendation that it be accepted as a fact that Germans and Japanese will strive through science to create the means of waging another world war.

He fully endorsed legislation for a national science foundation as a means both of developing and maintaining American resources, and of keeping possible scientific aggressors in check.

Baruch was a witness before senate military-commerce subcommittee considering bills to create a federally-financed program of aid to research. In a question-and-answer exchange with Senators Kilgore (D-W. Va.) and Magnuson (D-Wash.) after his formal testimony, Baruch stressed a need of a national inventory of America's resources.

"First priority" on these resources, he said, must be assurance of enough for this country, certainly enough to prevent inflationary bidding here for scarce goods.

ETO TROOPS DROP
LONDON, Nov. 1.—(AP)—Army personnel assigned to the U.S. base in the United Kingdom has been reduced from a peak of 1,500,000 to 76,859.

British Vote Labor Support

LONDON, Friday, Nov. 2.—(AP)—Britain's socialist labor party swept municipal elections all over England yesterday with the results confirming labor's July landslide in the parliamentary elections.

With ballots counted today in 113 of the major 130 provincial boroughs, labor recorded a net gain of 688 council seats while the conservatives took a net loss of 318 seats. Liberals and independents lost heavily too.

The great labor gains gave the party control of the council in almost every major city and town.

STORES TO REMAIN OPEN
ALBANY, Ore., Nov. 1.—(AP)—For the first time in years, stores here will not be asked to close on Armistice day this year, the chamber of commerce announced today.

Bjoerling, Kirsten Start Salem Winter Concert Series

Salem's contemplated musical fare for the winter started off on Thursday night with a special appetizer, a pair of very fine singers of Metropolitan fame, Jussi Bjoerling, Swedish tenor and Dorothy Kirsten, American born soprano, opened the Community Concert association winter series with a program of excellence.

The duet from "La Boheme" alone was worth the price of admission, but in addition we heard two groups of solos sung by each artist, the duet from the Garden of "Faust" and far too few encores.

Blond Miss Kirsten opened the program with a group including the "Care Selve" (Come Beloved) from Handel's opera "Atalanta," "Se tu m'ami" by Pergolesi, "Aimant la rose, le rosignole" (Nightingale and the Rose) the well loved Rimsky-Korsakoff composition and the airy "Gavotte" from "Manon."

Miss Kirsten warmed to her audience and they to her in the second group — compositions by Americans. Winter Watts' "Stress" a dramatic number with melody, she sang with feeling. Then followed Kentucky Mountain Song by Brockway, a humorous number, "Go 'way from my window" a Negro woodchopper's song and the happy, blithe Herbert "I List the Trill in Golden Throat."

Only Encore
Miss Kirsten's only encore was "Mi Chiamano Mimi" (My Name Is Mimi) from "La Boheme," in which she showed the possibilities of her voice, its richness and power.

Mr. Bjoerling's first group began with "The Flower Song" from "Carmen" by Bizet, followed by "Wanderer's Nachtlied" and "Die blose Farbe" by Schubert, Brahms' "Die Mainacht" and "Serenade" by Strauss. Mr. Bjoerling, newly returned from Sweden, gave a fine interpretation to this group and further endeared himself to his listeners in the songs which followed: "Torna al Sorrento" (Come Back to Sorrento), "Ideale" by Tosti and "Mattinata" (Awake the Day) by Leoncavallo.

Stephen Foster Song
His encore was "Jeannie With the Light Brown Hair" by Foster, which he sang with real beauty — and in clear English.

The duets were from the garden scene of "Faust" and the love duet from Act I of La Boheme. Their voices blending in these two beautiful love duets completed the evening and sent us home with the feeling that there should really have been more.

Russian Ships Await Cargo

PORTLAND, Ore., Nov. 1.—(AP)—Three Russian cargo ships, here after two months' absence, are waiting to load cargo for Vladivostok under a \$450,000,000 loan negotiated between the United States and Russia, maritime officials said today.

Spokesmen explained the loan was made to allow the soviet to carry through cargo halted enroute to shipping points when the lend-lease program was stopped. The steamships Sevastopol, Sevzaple and Komiles — the latter two equipped to carry 18 locomotives and tenders — are in Portland harbor awaiting loading orders. The three ships left here in July with lend-lease cargoes.

Girl to Face Charges at Eugene

Shirley L. Williams, Cottage Grove, was released to the deputy sheriff of Lane county Thursday night after being held here in the city jail on a warrant charging her with grand larceny.

Police said the girl admitted stealing a wrist watch, fur coat and other articles of clothing from the home of Mr. and Mrs. Walter Peterson of Eugene. She, accompanied by a serviceman from the naval hospital at Corvallis, then brought the things to Salem where they were left at 835 Hood st. The Williams girl denied, however, that the man had any knowledge of the articles being stolen. City police arrested her at the Hood street address.
