TOP O' THE TANK FERMENTATION GIVES

Columbia Ale

IT'S UNUSUAL, DISTINCTLY-DIFFERENT

Just as you can feel the fine texture of silk so can you taste the lighter, more-delicate "Top o' The Tank Texture" of Columbia Ale.

Tacoma, Wash.

If you are one of the many thousands who enjoy Columbia Ale, but have wondered how it got its delightfully different "texture," perhaps we can explain.

A completely different method of fermentation is employed in the brewing of Columbia Ale. A highly-cultured, unusual-acting type of surface or "top" yeast, is used to activate the brew. Unlike other yeasts, this variety floats buoyantly at the top of the tank and the fermenting action is downward from the top, rather than upward from the bottom.

This distinctly different method of fermentation results in the distinctly different "texture" of Columbia Ale, the lighter, smoother, more delicate "Top o' The Tank Texture" which so many enjoy but find difficult to explain.

If you are not among the thousands who enjoy this unusual beverage try a bottle today. Sip it at your favorite tavern, or take a few bottles home. You'll find it delightful before, or with, dinner, on summer outings, or at bedtime. Your guests will enjoy it, too.

All taverns, beverage stores and grocers carry it for your pleasure.

After the harvest... what?

Back in America's infancy, in 1621, Governor Bradford proclaimed a day of thanksgiving and prayer after the New England colonists brought in their first harvest. Gradually, over the years, it became a national custom to set aside one day of thanksgiving annually after the harvest. After the harvest!

What a harvest we celebrate in this year of our Lord, 1945! Not alone our bounteous harvest of crops. Not alone our magnificent harvest of military victory. But Peace—Glorious Peace—that's our harvest of '45! After the harvest... what?

A Day of Thanksgiving—from the depths of our souls!

Then we must finish paying for the weapons which did so much to bring us Victory. We must bring our boys and girls back home with all possible speed. We must heal our wounded and disabled—regardless of the cost. We must help every serviceman return to civilian life again.

That's the "Why" of this Victory Loan!

That's why General MacArthur radioed from the battleship Missouri: "They are homeward bound—take care of them!"

That's why the New York Stock Exchange says: Buy Victory Bonds. Don't let anyone talk you into cashing them. That goes for all of your War Bonds. Beware of all "get-rich-quick" schemes. Unscrupulous promoters are looking for victims now—as they were after World War I.

Yes, buy all the Victory Bonds you can—and hold them! These Bonds offer a variety of features meeting virtually every investment requirement. For the average person, the Series 'E' Bond is "tailor-made."

When you invest in Series 'E' Victory Bonds, you'll get your money back—plus an extra dollar for every three you lend! That's the investment proposition to you—direct from the U. S. Government. It's the world's safest investment.

All Series 'E' Bonds offer you the same yield, same maturity, and the same safety.

Seventy per cent of this Exchange's net current assets are in U. S. Government Bonds. The Bonds of our Government are the only securities we have ever recommended in the 153 years of our existence.

Invest in Victory Bonds. Invest in Peace—instead of War!

Series 'E' Victory Bonds pay off best when you hold them for the long pull. To cash them prior to maturity is to cheat yourself! See chart below. Black portions show increase in value over original investment at end of third, sixth, tenth years. Note greater increase in second three years... and even greater increase in last four years.
