Hunter was quoted as saying he shot when he sighted from his car at Stayton and didn't understand what Smith said to him.

So far as could be learned, no charges were filed.

HOMES FOR AMERICANS

(AP Features)

The rugged simplicity and charm of the ranch house which had its origin in the southwest is likely to find wide acceptance in post-war building says W. H. Schumacher (Petroleum building, Oklahoma City), who designed this one.

His plan affords functional single floor spaciousness for a six-room suburban home. The red-brown roof covered with asphalt shingles for extra fire protection highlights the exterior. The sturdy chimney and low configuration give an appearance of solid comfort.

The three bedroom—two bath arrangement separates the sleeping area from the living area. The combination living room and dining area has an overall length of 38 feet and is 14 feet wide.

The kitchen includes a built-in breakfast nook with a circular seat. There is a large recreation room in the basement which runs the length of the living and dining area. There is also space for the heating unit and laundry. The screened porch off the living room, reached through sliding glass doors, faces the flagstone patio.

The house is 80 feet overall and calls for at least a 100-foot site. It is planned to face either west or east, thus placing the bedrooms in the south. Exclusive of land, the cost is estimated at \$12,000 including heating plant and all built-in pictures.

NUERNBERG, Dec. 1-(P)—Rudolf Hess, self-confessed amnesia faker, was ruled fit to stand trial today, and then listened intently as defense attorneys failed to break down a German spy chief's testimony linking some of his co-defendants with the worst horrors of nazism.

Attorneys for Field Marshal Wilhelm Keitel, Hermann Goering, and Joachim Von Ribbentrop sought to upset the story told by Maj. Gen. Erwin Lahousen, former officer of the German counter-intelligence, who declared that Hitler and the entire German high command were to blame for atrocities on the eastern front.

The navy plane disappeared yesterday an hour after leaving Portland for Red Bluff, Calif.

"The common man will not go to war," the foreign secretary said, "if he is given the chance to determine the issue."

Unemployment Payments Go Up 63 Per Cent

Payments for unemployment benefits for the month of November went up to \$712,097. Oregon unemployment compensation officials announced Saturday, pointing out that this total has only been exceeded four times in the commission's eight-year history. Payments in March, April and May, 1938, and March, 1940, were higher amounts.

The amount was a 63 per cent increase over October, when \$436,037 was paid to workers. Readjustment allowance granted to out-of-work veterans went up 262 per cent over last month.

Veterans readjustment allowances, which are paid by the state compensation commission under agreement with the federal government, amounted to \$133,578 last month against \$36,906 for October. November's total does not include \$13,871 paid to self-employed veterans who failed to make \$100 a month. All veterans payments are made under the GI bill of rights.
