"There appears to be no feeling of contrition on the part of the Germans generally. . . . The Nazi party as a going political influence is eradicated, but the idea of fascism remains," Lt. Col. Joseph K. Carson declared Monday as he addressed the Salem chamber of commerce luncheon meeting.

Carson, who recently returned from Europe, where after the close of the war with Germany he worked with displaced people, recommended a civilian rather than military occupational government. Fraternization as practiced by a few soldiers has been bad for morale at home and abroad, he declared, emphasizing, however, that most of the military government has been efficiently handled.

"We should help them with food—they can't eat politics," the speaker maintained as he told of the people who are just now getting back to the homes from which the Nazis took them. In American-occupied Germany everyone appeared to be working from dawn to dusk when he was there, and he could make no guess as to what food supplies would be. But 12,000,000 persons who did not belong there, either prisoners of war or displaced from other European countries, were sharing Germany with the Germans and allied occupation forces.

Not only does fascism continue to exist in Europe, but its causes remain there and here, Carson declared as he urged his listeners to maintain their hold on free government and defeat Nazi tendencies in this country.

**Help Prevent Worse Cuts in Our Soap Supply**

WHERE THERE'S FAT, THERE'S SOAP!

SURE AN IT'S LUCKY WE HAVEN'T GOT TRIPLES TO WASH FOR, WE'RE THAT SHORT OF SOAP!

WE'RE LIKELY TO BE EVEN SHORTER IF WE DON'T SAVE EVERY DROP OF USED FATS TO HELP MAKE MORE SOAP!

CAN WE TAKE THIS FAT TO THE BUTTER MAKER?

WE NEED THE 5 CENTS!

SSH! IT'S FRANKIE!

SSH—YOURSELF! THIS IS IMPORTANT—HE SAYS WE'RE ALL TO KEEP SAVING FATS UNTIL THE GOVERNMENT SAYS STOP!

Your Used Fats Are Still Needed To Help Ease The Soap Shortage

As long as our country's supply of industrial fats is so low, the government must determine how much fat can be released to make soap and other peacetime goods you need.

Any let-down in your saving of used kitchen fats will make our fat supply even less... and the amount allowed for soap manufacture may have to be cut accordingly. The end of rationing of food fats doesn't change the picture. Industrial fats are still very short. So keep turning in your used fats, won't you?... and speed the return of more soaps to your dealer's shelves.
