It Wasn't the Unfinished Symphony

Franz Schubert has not lived to enjoy the appreciation that music lovers of the world have shown for his composition that remained unfinished as he wrote it before he died.

This Christmas to all Americans should mean more than ever the word "merry," for it is in reality the most merry Christmas that the American people can have or have had for a long time. Just to think of this remarkable and completed finished symphony that our beloved boys and girls in the Armed Forces have written and when we can sit down to our tables and feel that our boys and girls are home or coming home soon is the greatest cheer, the greatest symphony that the Lord could have given to all American homes. I rejoice to be able to wish them and theirs a Merry, Merry

Christmas and a Happy New Year.
