Milk Grades Discussed at Statehouse

Nearly 70 representatives of the milk industry met at the statehouse Friday for the hearing on proposed grades and standards for fluid milk and cream. It was conducted by O. K. Beals, chief of the division of foods and dairies of the state department of agriculture.

Beals announced that any persons who wished to submit written or oral statements relative to changes in the proposed grades and standards may do so up to December 28.

Grades proposed, in conformity with chapters 368 and 369, 1945 Oregon laws, are four: Grade A raw milk, grade A pasteurized milk, grade B raw milk, and grade B pasteurized milk.

The proposed regulations outline standards for each grade and establish a license fee, suggested at \$10, for milking herds of 10 cows or less and one dollar per cow over 10, except the maximum fee shall not exceed \$35, in the case of grade A raw and grade B milk. However, dairies of these classes selling milk only within a city having its own milk ordinance and a state-approved inspection service, will not be required to pay a license.

Several speakers, approving the grade designations as proposed, emphasized that dairymen should stress quality in their individual production as well as collectively.

May Rye Up Full Allowed Limit at Mart

CHICAGO, Dec. 21 (AP)—Commission houses bid may rye up the full 5 cents limit allowed in a single day's trading today after noting the government report that acreage seeded to the grain for 1946 harvest is 17 per cent less than a year ago.

Rye closed 3/4 cent to 5 cents higher, May \$1.71 1/4; wheat unchanged to 1/4 cent higher, May \$1.80 1/4; corn, unchanged at \$1.18 1/4; ceilings; oats 3/4 to 1 1/4 higher, May 77 1/4-1 1/2; barley unchanged to 1/4 higher, May \$1.22 1/4.

Government estimates that world wheat requirements would total 30,000,000 tons or about 1,110,000,000 bushels were viewed by traders as extreme. One commented that he could not recall any year in which exports exceeded 850,000,000 bushels.

The exports from July to the end of December this year, he added, probably will not be more than 175,000,000 bushels, or 25,000,000 bushels less than planned.

J. B. Hutson, assistant secretary of agriculture, was quoted as saying the export demand for wheat during the next six months will exceed supply by several million tons, with transportation the major problem to be overcome.

Stocks Move To Recovery

NEW YORK, Dec. 21 (AP)—Selected rails, industrials and utilities turned to the recovery side of today's stock market although many leaders continued to seek lower levels.

Closing trends were no worse than moderately irregular. Numerous customers deserted board rooms for an early start on the lengthy holiday. Principal securities markets will recess from Saturday to Wednesday. Tax adjustments persisted as a handicap and some selling was based on skepticism regarding labor controversies.

The Associated Press 60-stock average was unchanged at 74.4. Of 877 issues registering, 384 were down, 316 up and 177 all even.
