QUICK RELIEF FOR COLDS

What's New at Metropolitan?

THERE IS MUCH good news for policyholders in the 1945 record of the Metropolitan Life Insurance Company.

Payments to policyholders and their beneficiaries reached a new all-time high of \$623,000,000. Mortality among policyholders, excluding war deaths, was the lowest on record. The yield on the Company's investments followed the general trend and declined somewhat. The Company had asset gains which made it possible to revise policy and annuity reserves so as to reflect lower interest earnings. Scales of dividends to policyholders were maintained, and in some cases slightly increased.

Unassigned surplus funds at the year end amounted to \$448,600,000. In addition the Company had special surplus funds of \$109,400,000, of which \$95,100,000 represented a special reserve for possible loss or fluctuation in the value of investments and \$14,300,000 a Group Insurance reserve for epidemics, etc. These funds represent an extra cushion of safety for policyholders.

In its report to policyholders for 1945, Metropolitan provides answers to many of the questions a policyholder would be likely to ask if he could make a personal visit to the Company. Among questions answered, for example, are . . .

Were there many extra claim payments last year due to the war?

Would longer life for policyholders reduce the cost of Life Insurance? In what types of investments did the Company

put its money?

What does the Company advise about National Service Life Insurance?

In addition to answering these and many other questions, the report gives a financial summary of the Company's operations during 1945. Whether or not you are a policyholder, you will find this report interesting and informative. To get a copy, just write and ask for the Company's annual report entitled, "What's New At Metropolitan?"
