

Winnipeg Mart Rise Echoed by Chicago Grain

CHICAGO, April 1—(AP)—Some grain futures traders who had said they were going to sit this one out finished the day waltzing around the pits with other interests in self defense, and helping bid the prices up.

The day's business opened at its recently customary slow pace, because several commission houses had said they did not want either to buy or sell very much until they knew more about what might be shaping up in Washington.

But word came that May rye was as much as the 5-cent daily limit higher at Winnipeg and that cash demand was strong here even at premium prices. A few interests then swung over to the buying side of futures and prices moved upward. Some sorts became nervous and bought amounts necessary to cover, adding strength to the rally.

Although the demand was light, offerings were scarce at the higher levels.

Wheat and corn continued at ceilings of \$1.83 1/2 and \$1.21 1/2. Oats closed unchanged to 1/2 cent higher than Saturday's finish, May 83-cent ceilings; rye unchanged to 2 1/2 cents up. May \$2.21 1/4; barley unchanged to 1/4 ahead, May 1.26 1/4 ceiling.

HIT U.S. BRITISH CONTROL

LONDON, April 1—(AP)—A Moscow radio commentator said tonight that a "lack of firmness" by British and American occupation forces in Germany was responsible for the resurgence of the Hitler youth movement that brought about Sunday's mass raids against a Nazi underground movement.

Mine Walkout Sends Mart on Downgrade

NEW YORK, April 1—(AP)—The walkout of 400,000 soft coal miners, while fully expected, seemed to chill bullish enthusiasm in today's stock market and, while assorted favorites managed to overcome the handicap, leaders generally took the downward trail.

Earnings, dividends and the urge to invest idle cash still provided buying incentives.

Bids for utilities developed when the supreme court handed down the long-awaited decision upholding the "death sentence" clause of the holding company act. Although the majority failed to follow through, most retained advances of fractions to a point or so.

Announcement of the OPA that the recent crude ceiling lift would take effect immediately buoyed some of the oils.

Losses running to better than 3 points predominated at the close although many extreme declines were reduced. Transfers of 1,950,000 shares compared with 1,220,000 Friday.
