### BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and drooping about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's "check-out" of taking poisons out of the blood. They help most people pass about 2 quarts a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent urinating sometimes with smelly, burning urine sometimes with some blood. Don't wait! Ask your druggist for Doan's. It's a stimulant diuretic, used successfully by millions for over 40 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.
