WHEN YOU NEED PLATES ARRANGE FOR TERMS—

Accepted Credit permits you to pay in weekly or monthly amounts: Pay for plates while wearing them.

Dr. Painless Parker Says:

"If you have poor or missing teeth here is your opportunity to replace them with new life-like plates. These realistic plates are made with the improved material all dentists recommend for more faithful reproduction. Make your own credit terms within reason."

Plates Have Beauty Of Appearance and Tested Stability

You want dental plates that look well and wear well. That's why the dental profession has been quick to acclaim transparent material for the making of plates. Transparent plates have balanced strength and a resiliency that means more durability. Although lighter in weight they will not shrink or warp. Unfading color and permanent natural form characterize these plates.

Translucent Teeth In the Shade and Size of Your Natural Teeth

Developments in the field of chemical science have led to the perfection of artificial teeth that absorb and reflect light as do human teeth. It is possible with the aid of a color guide to choose teeth that resemble your present teeth both as to hue and density of shading. More satisfactory effects are obtained when you have your new dental plates set with TRANSLUCENT TEETH.

Plates Harmonize with Individual Features

Care is exercised in blending the color of transparent dental plates so that they merge with the natural color of the gums and tissues. The soft luster and diffused tones of new style plates make them difficult to detect.

Much of Nation's Ill Health Attributed To Dental Neglect

If teeth are not kept in repair you risk focal infection, loss of physical resistance and complete breakdown of health. The skill and experience of the worker is sacrificed when illness forces him off the job.

More Than 600 Million Fillings Are Necessary to Put The Teeth of the United States in Shape

Surveys show need for 200 million extractions and at least 20 million dentures.

Make First Visit Without Appointment. Pay Later. Budget Expense of dental service

Avail yourself of ACCEPTED CREDIT for dental plates, fillings, inlays, bridgework, crowns, extractions.
