WHY are Greyhound Fares DOWN...?

When Most Other Things Cost MORE?

Fares in Oregon are 40% Lower Since 1933

STRANGE as it sounds, Pacific Greyhound fares in Oregon have been reduced... BECAUSE the service is being increased! Look at it this way...

As Oregon communities grow, and as more frequent service is added, more people ride Pacific Greyhound buses. 35 passengers can be carried on one bus for no more than it costs to carry 25. It costs little more to operate a depot for 6 buses a day than it does for 4, and so on.

If more people ride, Pacific Greyhound's costs go down. And Pacific Greyhound passes this saving on to the people of Oregon... in the form of lower fares and better, more frequent service than ever.
