Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 16 million of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headache and dizziness. Don't wait! Ask your druggist for Deane's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Deane's give happy relief and will help the 16 million of kidney tubes flush out poisonous waste from your blood. Get Deane's Pills.
