THE GRANGE labored for many years to have the graduated income tax enacted (in 1930) as an amendment to the State constitution.

Reasons: The Grange believes that taxes should be levied in direct proportion to ability to pay; that the major cost of government should not be borne by real property.

Results: Many millions of dollars have been saved farmers and others through direct relief from property taxes.

Projects of this nature are as vital a part of Grange activities as better agriculture itself. That is why 28,000 progressive farmers belong to the Oregon State Grange — why membership continues to grow — why the Grange is a dominant force for social progress.

Information about the purpose and accomplishments of the Oregon State Grange is contained in a booklet "Let's Look at the Record". Contact your local Grange for copy, or write direct.
