

Jewish DPs Attack Army In Germany

FRANKFURT, Germany, July 26.—(AP)—The U.S. Third Army announced tonight that Jewish displaced persons made two organized attacks on American soldiers in southern Germany last night and that seven Jews were wounded by American bayonets and bullets.

The army said American troops fired on a group of 150 Jews who attempted to storm a U.S. enlisted men's barracks at Windshheim, and that American soldiers, with bayonets fixed, restored order after "an angry mob" of Jews attacked American military policemen at the Wolftrausen DP camp, setting up a mob and slapping the soldiers.

Six Jews were wounded at Wolftrausen, 15 miles south of Munich, the army said, and one Jew was hurt at Windshheim.

The Windshheim incident began, the announcement said, "when an American soldier, in the charge of an engineer water point was attacked by three Jews."

At the same time, the report continued, a mob of some 150 Jews was advancing toward the barracks building. When ordered to retreat, the displaced persons replied with threats. In the resulting disorder, American soldiers fired a few shots and one displaced person was wounded.

Back on Bikini After Blast

BIKINI, July 25.—Radiological monitors leave first boat (background) into Bikini after the underwater atomic bomb explosion and move onto the beach six hours after test to check on radioactivity. They remained ashore for 30 minutes. Joint army-navy task force photo by navy radio to San Francisco. (AP Wirephoto)

Sun Spot Curtain Snarls Radio, Telegraph Communications

NEW YORK, July 26.—(AP)—A sun spot "curtain" across world air lanes today snarled international radio communications for the second consecutive day and interfered with domestic telegraph transmissions.

Wireless, Inc., said atmospheric conditions caused intermittent failures in trans-Atlantic and trans-Pacific communications during the day.

Sidney Sparks, vice-president and traffic manager of Radio Corporation of America, predicted atmospheric conditions would improve over the week end.

Morse Enters Data Measure

WASHINGTON, July 26.—(AP)—Citing need of greater information on living costs, Senators Murray (D-Mont.) and Morse (R-Ore.) today introduced a bill to expand the work of the bureau of labor statistics.

Their resolution would provide \$250,000 to finance gathering of information on prices of food-stuffs, rents and "other living essentials" more frequently and from more cities than at present.

Chairman Thomas (D-Utah) of the military affairs committee introduced a bill to create a nurses corps, dietitian corps, physical therapist corps and an occupational therapist corps in the medical department of the regular army.

Senator Mitchell and Rep. Jackson, Washington democrats, introduced bills to permit a corporation to make deductions from income for tax purposes where it donates all facilities for a period of time to veterans' organizations.

Senate Okeas Rail Measure

WASHINGTON, July 26.—(AP)—The senate late today passed a house-approved bill liberalizing the railroad retirement and unemployment insurance acts, after eliminating a section extending the benefits to about 10,000 employees of freight-forwarding and railroad-connected truck services.

The measure was approved 56 to 10 and now goes back to the house for action on amendments.

Sir Dandy Wins

SEATTLE, July 26.—(AP)—The Clearbrook stable's Sir Dandy, a 19 to 1 bet, won the feature mile race at Longacres tonight as heavily favored Blue Tiger faded in the stretch after leading all the way.

Reliable Shoe Wins

PORTLAND, Ore., July 26.—(AP)—Reliable Shoe eliminated the Fire Department from the Oregon state semi-pro tourney, 4-3, tonight in an all-Portland contest.

FIRST HONOLULU FLIGHT SET

PORTLAND, July 26.—(AP)—The first commercial airliner carrying a privately paid cargo from the Pacific Northwest to Honolulu will depart from here next week, the Maison Navigation company said today. The plane will carry fruits and vegetables and other perishables.

OPA Raises Price Lids on Many Goods

(Story also on page 1)

WASHINGTON, July 26.—(AP)—A revived OPA today increased price ceilings on many household and commercial items.

Directly affecting consumers were these increases, all effective at once:

Five cents a pair on rubber heels in shoe repair shops. Five and one half cent on household oil burners. Ten per cent on retail ceilings on rubbers, galoshes and other rubber footwear. Six or eight cents a ton on coal for household use, to cover freight increases. One cent to six cents a pair on some work gloves. From three and one half to seven per cent increase on cotton rugs.

Eight per cent on certain shoes. Since these types account for 30 per cent of all production, the general level of shoe prices rise 2.4 per cent.

Up to 21 per cent on lower priced auto seat covers. One to three cents on each piece of inexpensive chinaware.

All the increases were designed to offset higher costs of labor and materials, or to stimulate production of scarce items.

Meanwhile a formal request for an additional \$26,000,050 for operation of OPA reached congress.

In asking for the additional money, President Truman said the \$75,000,000 already appropriated for OPA for the current fiscal year was "insufficient" to permit effective operation until the next congress convenes in January.

The additional funds, he said, should permit OPA to operate until next February, when more money can be provided by the new congress.

Atom Control Bill Passed By Congress

WASHINGTON, July 26.—(AP)—Congress finally sent a bill for all-civilian domestic control of atomic energy to President Truman today and the White House said it was "one hundred per cent in line" with the president's views.

Charles G. Ross, White House press secretary, reported the chief executive "is naturally highly gratified" and will sign the measure promptly when it actually reaches his desk.

Ross called reporters' attention to a letter Mr. Truman sent Feb. 1 to Chairman McMahon (D-Conn) of the senate special atomic committee, outlining principles on which he believed domestic development and control of the new power should be centered.

The main item in that list was a control commission "composed exclusively of civilians," but without bars against former military personnel. Such a commission is provided in the bill as passed.

Lt. Redin Praises Red-U. S. Friendship

PORTLAND, Ore., July 26.—(AP)—Lt. Nikolai Redin, soviet naval officer acquitted of espionage charges, declared today that Russian-American friendship was the great bulwark for peace.

Preparing to sail for Russia on the freighter Maxim Gorki, Redin said that it was the job of the press to prevent "outside forces" from disrupting the wartime cooperation of the two nations.

Redin declared that, despite the trial, he would return to Moscow with many pleasant memories and good friends made here. He, his wife, and daughter will sail Sunday.

CONDITIONS REPORTED

Richard Phillips, 23, Scio, who was injured last Friday night when his motorcycle skidded off the road near there, was reportedly still in only "poor" condition at Salem Deaconess hospital.

Norvel Bennett, Foster, who was injured in an auto accident, and Donna Cummings, injured in a bicycle-car collision, both last week end, were reportedly improved Friday.

Phoenix, Ariz., grew from a tiny stagecoach stop in 1868 to a busy modern city with a metropolitan population of 165,000.

2,168 Pounds of Cherries Picked in One Day's Work

HOOD RIVER, Ore., July 26.—(AP)—Out in the cherry orchards here they're dreaming of Henry Wooten, a 32-year-old migrant who picked 2,168 pounds of cherries in a day, earning \$75.54.

Roy Webster, owner of the trees where Wooten picked, said longingly that "he's about the best man we've ever had in six consecutive days last week he earned an average of \$59 a day at 3½ cents a pound."

Wooten climbs up and down the ladder grabbing cherries with both hands. "He'll bet \$100 at the drop of a pit that he can out pick any man, anywhere, on any row of trees," Webster said.

The Kentucky-born farm migrant has been following the fruit 10 years. He set an apple picking record at Chelan, Wash. last year with 360 boxes in a day, and he's reported to have picked a record haul of peaches in California, too.

Fellow-workers contend Wooten's a college graduate, but nobody's quite positive about that. Between seasons he writes stories for the pulps, but he's not so speedy at that. Maybe one out of 60 says that, Wooten said.

Garsson's Son Claims Army Life Protected

BATAVIA, Ill., July 26.—(AP) Joseph "Bud" Garsson, former army captain and son of Murray Garsson, a principal in the senate war profits investigation, said today that throughout his army career his commanders were under instructions to "take care of Garsson."

He told a news conference that while he was at Edgewood arsenal in 1942 he had a chance to go overseas as a staff sergeant. "My application was blocked," he said. "The executive officer told me, 'We've got a standing order that you are not to go overseas.'"

Garsson said that through his own efforts, however, he was sent to Europe and spent more than 300 days in combat. He was awarded the bronze star for meritorious service in France.

He stated he was unaware of it if Rep. Andrew May interceded in his behalf when he faced a court martial in France for disobedience of a command. He said he "once shook hands" with May when he was passing through Washington.

Garsson said he resented interference with his army career but felt that "anything done for me in the army through influence of my father was done because a normal father's reaction is to protect his son and possibly further his career."

He said he believes his father did not ask May to use his influence except in the court-martial case, but added he believes the influence came "through generals in the chemical warfare branch."

Officers Asked To Volunteer For Active Duty

PORTLAND, July 26.—The war department has announced the increase in quotas, for recall to active duty, of 1006 National Guard and reserve officers of all grades for service with the civil affairs division, an additional 40 for service with the intelligence division, 35 for service with foreign liquidation commission, and 50 additional for service with the financial department.

"This and previous authorizations make a total of 7589 vacancies available to officers who have gone on inactive duty or terminal leave but who desire further active duty. War department representatives indicated that this number may be increased in the near future.

Although the war department is authorized to recall officers to active duty without their consent during the emergency, it is desired to fill these vacancies with volunteers.

Previously announced quotas are as follows: Corps of Engineers, Quartermaster corps, Signal corps, Transportation corps, and Ordnance department, 500 each; Chaplains corps, Chemical Warfare service, and Branch Immaterial, 300 each; Medical administrative corps, 200; Adjutant General's department, Counter Intelligence corps, Medical corps and Dental corps, 100 each; Judge Advocate General's department, corps of Military Police, Hospital Dietitians of the Medical department and Sanitary corps, 50 each, and Finance department and Veterinary corps, 25 each.

The army ground forces has a quota of 2000 officers of the combat arms in the grades of captain and lieutenant only, and the army air forces has an allotment of 150 non-pilot technical specialists.

Officers desiring to volunteer for return to active duty must apply in writing to the Adjutant General, War Dept., Washington 25, D.C., and must meet the physical standards for overseas service. Application forms may be obtained at any army installation, army recruiting station, or officers' reserve corps headquarters.

Wilder Version of 'Kitten on the Keys'

VANCOUVER, B.C., July 26.—(CP)—Gus, the musical mink, may not know the notes, but he gives a daily recital at the home of Mrs. E. F. Housden here.

"He is fascinated by the piano," said Mrs. Housden, who selected him for a pet from a pen of 60 mink. "He runs up and down the keys with surprisingly musical results."

Gus doesn't like sheet music. He invariably pulls it off the stand before starting a number.

Alcan Road Traveled by Salem Visitors

That the Alcan highway is practical for travel was proven in the recent visit at the Loring Schmidt home of John Meggitt, wife and two young children from Anchorage, Alaska. They had driven by car to the states over the Alcan highway without particular difficulty. At one night stop they failed to get sleeping accommodations because bus passengers took up rooms available, but the rest of the time they got sleeping quarters.

The Meggitt car was equipped with an extra 15-gallon tank for fuel, but this, they said, was not really necessary. Much of the road is dirt but in good condition. They traveled 3500 miles in 11 days.

Meggitt and Schmidt became acquainted during the war when the latter was on duty with the army in Alaska. Meggitt was later commissioned and had recently been discharged with the rank of lieutenant colonel. The visitors went on to California from here.

Pecarovich Named

SAN DIEGO, July 26.—(AP) Mike Pecarovich, one-time Gonzaga university football player and coach, was signed here today to coach the 1946 San Diego Bombers in the Pacific Coast Professional Football league.

Munition Firm Leader Denies Profit Making

HAVANA, Cuba, July 26.—(P)—Murray Garsson, munitions maker whose wartime earnings are under scrutiny of a US senate investigating committee, declared in an interview today that "this is a smear campaign" and "my company made no millions."

"If I were a Jesse James and a Robin Hood in one, I would still deserve praise for the accomplishments of my firm in the war effort," declared the 56-year-old industrialist, as he lay in bed in his Hotel Nacional suite beside a night table covered with medicines. He said the medicines were for a heart ailment.

Garsson declared he was anxious to recover so he could return to the United States to defend himself. He will appear before the senate committee, he said, as soon as his doctor and his attorney, Wayne Johnson, approve.

"All talk of war profiteering is ridiculous, my company made no millions, as is charged; our profit was less than six per cent of the invested capital," Garsson declared, referring to the Eric Basin Metal Products company in which he said he had an interest of one third.

The Batavia Metal Products company, also involved in the senate investigation, made no profit at all, he added.

"I don't know what they are talking about," Garsson said when questioned about other companies, up to a total of 18, linked to his firm by the congressional investigators.
