A handsome boss and a pretty young working girl generally spell romance, as Dennis Morgan and Ann Sheridan (above) prove in Warner Bros.' sparkling new comedy, "One More Tomorrow," currently at the Elsinore theatre. Also starred in the film are Jack Carson, Alexis Smith and Jane Wyman.

HOLLYWOOD

By GENE HANDSAKER

HOLLYWOOD — Pretty little Ann Blyth, who broke her back 14 months ago, resumed her screen career the other day. We went for a rowboat ride, and just to prove her back's as good as new, Ann took a turn at the oars!

I found Ann beside a wooded lake where a Universal production troupe was taking picnic scenes for "Swell Guy," starring her and Sonny Tufts. Ann is blue-eyed, 17, and weighs a nicely proportioned 102 pounds.

About a calamity like fracturing her spine, she's quite casual.

Paddle your own canoe—This is Handsaker and Ann Blyth.

Wasn't there any time during those three months on her back in a cast and those 11 months in a brace that she was discouraged about her future? Ann slowly shook her scarf-wrapped head.

"I had my studies to complete and my graduation exams to prepare for. The teacher came to my home three times a week." Ann was pushed onto the platform at University high school in a wheel chair and received her diploma with the other pupils.

It was after she had completed her role as Joan Crawford's spiteful daughter in "Mildred Pierce," a performance that won her a nomination for an Oscar, that Ann had her accident. With two friends—a boy and a girl—she was bob-sledding near Lake Arrowhead.

"The fellow and I had gone down the hill twice and then all three of us tried it," Ann said. "I was on behind. The sled hit something and I was thrown backward into the snow, which was hard as ice. It knocked the wind out of me and felt as if my back had been driven into my chest.

"But I got up and walked over and sat down on a stump. The man was hollering for us to bring back his sled. I walked down hill with the others and got into the car and rode 20 miles into San Bernardino. We went to some friends' house and I lay down on a couch. I couldn't get up."

At the local hospital, X-rays

showed a compressed fracture, which Ann diagrammed on my note pad; "two vertebrae jammed together, in less than the normal space for one, just below the middle of the back." Ann spent 13 days there before she was moved home in her cast. Friends came to autograph the cast, among them Actor Charles Korvin.

Now Ann is learning to golf, answering her fan mail and carrying on as actively as ever. The vertebrae are almost back to normal size, and the only difference she notices is a backache if she overexerts.

The nicest part of our bontride, for me, was assisting Ann in and out of the craft.

If Scenery good, Let Us See Some Garage Men Say

SILVERTON, July 27. — After August 3, if motorists want their cars tuned up at Silvertown for a week end trip out of town, they are going to have to tune before Saturday afternoon, local garage owners have decided. Several local garage men have banded together to close at 1 p.m. Saturdays to give themselves and their crews an opportunity to enjoy Oregon's great out of doors which their clients have been talking about for years.

Signing the agreement are Olson Motor Service, Lehi's Welding Shop, Anderson Motors, Silvertown General Repair, Bradley Bros. Motors, Silvertown Paint & Body Service, Seifer and Moll, (formerly Allen Bros.), Earl Hartman Co., Clark-Shepherd Motor Co., Silvertown Pontiac Co., and Hans Hagedorn, Jr.

Freshman Bids at EOCE Increasing

LA GRANDE, July 27. — (AP) — Freshman entrance requests at Eastern Oregon College of Education total 207, compared to 42 a year ago, Registrar Lyle H. Johnson reports today.

A maximum enrollment of 600 is expected for fall term, he said, although dormitory space for both men and women is still available.

Portland Wheat Price Hits Decline

PORTLAND, July 27. — (AP) — A sharp price decline on the Portland wheat market was noted during the past week, the department of agriculture's production and market administration said today.

Satisfaction of the feed trade's demand unwillingness of millers to compete for grain at the higher levels and pressure of the new crop were factors involved.

Lack of Refrigerator Ships Stalls Relief Food

SEATTLE, July 27. — (AP) — A lack of refrigerator ships is preventing a movement of a surplus of northwest vegetables from Puget Sound to the hungry Philippines, a spokesman for the produce industry said today.

Some recent crops have not even been harvested, in spite of repeated requests from buyers in the Philippines for fresh vegetable shipments, said this source, who asked that he not be quoted by name.

Ron Coleman Does Dual-Role In Grand Film

He did it with mirrors!

Ronald Coleman has succeeded in imparting to his dual role in David O. Selznick's "The Prisoner of Zenda," showing at the Grand Theatre, the most distinct separation of two personalities ever portrayed on the screen by a single star. His method is unique in the annals of filmdom.

Coleman, who with Madeleine Carroll and Douglas Fairbanks, Jr., heads the "Zenda" cast, used mirrors to achieve the striking result. He plays the part of both King Rudolf, a reigning monarch, and Rudolph Rassen-dyll, an English gentleman, two persons whose personalities and traits are different, though their looks are the same.

Mirrors entered the picture in the Coleman's rehearsals for the most

Ann Sheridan, Dennis Morgan Top Cast in Elsinore Feature

Warner Bros.' new comedy, "One More Tomorrow," now playing at the Elsinore theatre, stars Ann Sheridan, Dennis Morgan, Jack Carson, Alexis Smith and Jane Wyman.

When, in addition to business problems, a three-sided romance springs up, it threatens not only the happiness of the man and the two women who love him, but bids fair to wreck the entire publishing venture, too.

The picture's plum role, from a purely masculine point of view, has fallen to Dennis Morgan who, as Tom Collier, millionaire playboy and owner of the magazine, has numerous and enviable opportunities to make love to Christie Sage (Ann Sheridan), talented young photographer, and, later, to Cecilia (Alexis Smith), too. It is by way of a tribute to the excellence of all three that this reviewer, because of the believability of their various performances, found himself as hard-pressed to choose between the two glamorous ladies as is Tom, in the film.

Jane Wyman, as Franc Connors, photographic assistant to Christie, contributes another of her disarmingly natural and sincere portrayals which have, by now, come to be her special trademark; while Jack Carson as Pat Regan, Tom's extraordinary valet, adds substantially to his already sound reputation as a topnotch comedian.

Defense Area Rent Control Renewed

PORTLAND, July 27. — (Special) — Rent control in all federal defense rental areas is renewed in exactly the same condition and form as it was prior to June 30, Jackson T. Moore, district rent executive, announced here in answer to numerous inquiries from the public.

"The landlord is subject to the same obligations and the same penalties," Moore continued, adding that all ceilings of June 30 now were re-established.

Pay as You Wear New Plates With Accepted Credit

Make your own terms, within reason, for plates, fillings, extractions and dental work of all kinds.

Dr. Painless Parker Says:

"If you are wearing clumsy, old-fashioned dentures, here is an opportunity to change to the lighter, more lifelike plates the dental profession is making from improved transparent material. Arrange now for these natural appearing plates on weekly or monthly payments."

Transparent Plates Achieve Blended Color Effects

Dentists everywhere praise the refined material used in making dental plates for its tested balance, its strength and durability. Plates have a permanent, natural color that harmonizes with individual features. They are graceful in design, and have a lustrous beauty. Their permanent form means they will not shrink. Use Accepted Credit if you need new dental plates.

Discomfort and Serious Illness Result from Poor Teeth

Millions of persons in the middle years of their life, at a time when they should be enjoying the fruits of skill and experience, have been forced to take layoffs from important work because of ailing teeth, and focal infection. Physical resistance is broken down when poison drains into the system, when diseased teeth are allowed to remain in the mouth.

Start Dental Visits Now and Pay Later

In budgeted sums. Make first visit without an appointment. Select dental plates with clear palate that reflects tissues of the mouth.
