

### Cattle Decline Cited in Falling Grain Futures

CHICAGO, Aug. 15 (AP)—Corn and oats futures weakened today on receipt of good moisture over wide sections of the grain belt and a report by the department of agriculture that cattle in mid-western feed lots on August 1 were down 45 per cent from last year.

Corn showed the widest decline, falling rapidly at one time when stop-loss orders were uncovered. March dropped 4 1/2 cents in a trading market before the decline was halted and a small recovery developed. Both January and March corn reached new seasonal lows.

At the close corn was 34-3 1/2, lower, January \$1.33 1/2, and oats were off 3-13/16, August 54-3/4. Barley sold at \$1.28 1/2 off 1/4.

Wheat was quoted as steady in the cash market. Grain men said a strike of the CIO national maritime union on the Great Lakes may cause a check the movement of wheat to eastern lake ports.

### Market Feels Lakes Strike

NEW YORK, Aug. 15 (AP)—Stocks generally took the back track in today's market, although selling pressure was exceptionally light throughout. Brokers attributed the retreat mainly to the cloudier labor outlook, including the Great Lakes shipping strike, many smaller workouts and apprehension over renewed wage demands in the automotive and other industries. Good dividends aided a few issues but failed to impress others concerned.
