Pay for new plates as you wear them, with Accepted Credit

Make your own terms, within reason, for dental plates. Select plates of tested stability and permanent, natural form, Dentists everywhere acclaim the improved material used in plate-making, for its adaptability to personal needs. Plates have a beauty and grace of design and a soft lustre that makes them hard to detect. They will not shrink or warp. Because of their resilency, plates offer longer-wearing efficiency.

Start dental work now and pay later. Dental service of all kinds on credit. Make first visit without appointment. Dental plates. bridgework, fillings, crowns, extractions and inlays.

Surveys determine mounting needs for

dental service in nation Estimates hold that there is need for 200 million extractions, 600 million fillings, and 20 million dentures among the people of the United States. The number of dental chair hours required to meet the accumulated needs because of the war years is placed at 130 million hours.

Translucent teeth simulate the effects of fine, natural teeth

Science has perfected artificial teeth for restorations that absorb and reflect light as do human ones. Plan to have plates set with translucent teeth, in the shade, shape and size of your present

Unfading natural color of new plates harmonizes with individual features. Crystal-clear palate reflects actual tissues of the mouth.

Diseased teeth should be removed to avoid focal infection

When poison from ailing teeth finds its way into the system, it breaks down normal resistance and leads to serious illness. If you have poor or missing teeth, replace them with dental plates."

Dr. Painless Parker Says:

"If you plan to get plates, It will be to your advantage to call and have the dentist show you the new lightweight. lifelike, transparent plates. These realistic plates are made with the refined material all dentists recommend for faithful results."
