Third Retreat Ends At Mt. Angel Sunday With Plan for 1947

MT. ANGEL, Aug. 19—The third annual laymen's retreat which closed Sunday had a record attendance of 103, including several non-Catholics. Plans for a retreat home and suggestion that four retreats be held in 1947, two of four days each instead of three, were discussed at the social hour and supper which followed the closing ceremonies.

Final approval was given the following officers for the coming year: Francis Kern, Portland, president; William Plasker, Tillamook; Henry Kropp, Salem; Frank Start, Portland, vice-presidents; Charles Royce, Portland, secretary; Alvin Kerber, Mt. Angel, treasurer; Father Damian and Father Edward will continue as spiritual director and assistant.

In 1790, the U.S. Coast Guard, at that time the U.S. Revenue Marine, was founded by Alexander Hamilton to operate against smugglers. The second act of the first Congress provided an appropriation of 10 cutters to assure collection of customs.

State Fair of Old Days Recalled When Grounds Seen Being Spruced

By Maxine Buren
 State Fair Woman's Editor

Looking over the fairgrounds, being readied for the big week we recall many a happy time when the whole family attended the fair on Labor day or Salem day, or both. We were, like hundreds of other families, loaded into the surrey and with Old Fred up front, journeyed out to the grounds. Fred saw the fair from the oak grove over back of the old dairy building but we roamed through the pavilion and barns, looked at the sculpture in butter and admired the blue ribbons on the Tillamook cheese. We saw the races—but always from the fence.

Fairtime was mighty important in those days, and although little money came from our pockets during the day, we had just as good a time on a few cents as the modern child does now on ten times that much.

The Midway must have been very small and unimportant next to the present day amusement center, but it looked brightly lit when Johnny Jones' stand, Mrs. Olmsted's lunchroom, and the Methodist church restaurant were patronized only on rare occasions by our family, for we usually took lunch and ate it over by Old Fred in the oak grove along with other Salem families.

Ice cream cones were a special treat and there were the scones we always enjoyed.

Needlework, although never of interest any other time, always attracted us children, as did the photographic exhibits in the rickety old building near the pavilion. Farm machinery fascinated, as it does now. And when the "automobiles" came in there was a new thrill.

But underneath, it's really the same old fair, only graduated into something a bit more colossal to satisfy the modern patrons of which there are increasingly more.

The county exhibits, with their scenery and letters made of grain, or fruit or even eggs. And oh yes! the panoramas we used to see, still recalled when we come suddenly over a hilltop, look down on a valley some below so much like those fascinating miniatures of our country with the blinking lights and tiny trees.

For the family, money through the barns, had for the fathers that guard the county exhibits, spend time in the needlework and photographic displays, and when feet give out, drop in to where they show free movies or have concerts.

It's still great fun.
