Small Rally in Stock Market

NEW YORK, Aug. 20.—The stock market today negotiated a moderate rally led by utilities, steel and assorted industrial without touching off anything in the way of urgent demand.

Buying, mainly by professionals with the public still shy, was attributed by brokers to the belief that four straight declining sessions enticed the list to a technical comeback. Dividend and earnings again were helpful to individual favorites although fading to insure others. Bullish contingents held to the cautious side pending decisions of the decontrolled price board and more light on the labor outlook. The cloudier foreign situation also acted as a restraint.

Dealings slow most of the day, picked up a bit in the final hour as trends hardened, then retreated to sluggishness toward the finish. While losses persisted gains of 1/16 to 2/8 of more points predominated at the close. Ten lists of 200,000 shares, compared with 660,000 Monday.

CHICAGO, Aug. 20.—Grain futures trading limped along on scattered light interest, but steady to firm prices today as brokers generally aired their views on what the decision of the price decontrol board would be on the reinstatement of ceiling figures.

Corn closed at 11-1/2, 1/2 cents above yesterday's finish, 31 cent; soybeans, 1/4 down to 11-1/2; August 77-1/2, barley 3/4 ahead, Nov. \$1.28 1/2.

The mid-month official crop report, scheduled to be released tomorrow, was expected by some analysts to show an upward revision of the 3,496,280 bushel corn crop as indicated by conditions on August 1.
