Conductors On Pullmans Given Raise

WASHINGTON, Sept. 6 (AP) - A federal fact-finding board, in a 2 to 1 decision, recommended today that the 18 1/2 cents an hour railroad wage increase be paid to Pullman conductors on the basis of a 240-hour month even though their actual working month is 225 hours.

The dissenting member, Chief Justice Robert G. Simmons of the Nebraska supreme court, protested that the decision "unlocks the doors and furnishes a vehicle to be used in further tearing down anti-inflation controls."

The majority, I. L. Sharfman, chairman, and Walton H. Hamilton, held that traveling railroad employees are in a different situation than workers with a fixed place of employment who "may come to work and leave the job at fixed times" and that a different standard should be used in calculating their work-month.

Schaack Irate Over Speech By LaGuardia

CHICAGO, Sept. 6 (AP) - Harry Schaack, president of the Chicago board of trade, today termed "scurrilous and perhaps libelous" statements made by UNRRA Director Fiorenzo H. LaGuardia concerning trading in grain exchanges.

Sparking yesterday before the United Nations food and agricultural organization at Copenhagen, Denmark, LaGuardia called for elimination of grain price fluctuations. This, he said, "will put every gambling grain exchange out of business in Chicago, in Winnipeg, in Liverpool, or wherever it exists."

Schaack said in a statement, "I hope that the reaction of those whom LaGuardia tarred with his appellation of 'gamblers' will be such as to bring about a curb on any further utterances of similar character."

be used to minimize the spread of the spores and the number of brown rot infected prunes per box.

**Dust With Sulfur**

All picking boxes and lugs should be dusted with sulfur before using. Growers should remove all cull fruit from under the trees before the shakers begin work. Pickers should be instructed to throw out spore covered and decayed or mummified prunes. Since any break in the skin of the fruit enables brown rot to gain a foothold more easily, pickers should be cautioned to handle the fruit carefully to avoid stem punctures, bruises, and skin abrasions. Prunes should be processed as quickly as possible, for the brown rot organism spreads rapidly while the prunes are in the box.

**DR. WRIGHTON RESIGNS**

PORTLAND, Sept. 6 (AP) - Resignation of Dr. William H. Wrighton as president of Western Baptist Theological seminary here was announced today. Dr. Earl S. Kalland and a faculty committee will direct the seminary until a new president is named next summer.

**HEIRENS STARTS TERMS**

JOLIET, Ill., Sept. 6 (AP) - William Heirens was brought to the Illinois state penitentiary here today to start serving life terms for the kidnap-killing of Suzanne Degnan, the knife murders of two women and more than a score of burglaries, robberies and assaults.
