

Deadline November 1 for Cities, Colleges to Apply for Housing

Oregon cities and colleges seeking housing facilities from surplus government property are to apply to the federal public housing authority in Seattle by November 1. Regional FPHA Director Jesse Epstein announced to The Statesman yesterday.

Epstein said the deadline applies to applications made under the Latham act, with the understanding that FPHA provides the buildings but the city or college must pay for moving and alterations.

Presumably the deadline does not yet affect the disposition of Camp Adair buildings, for all Adair property is at present held by the war assets administration. FPHA officials indicated in Salem Friday, however, that the housing authority is seeking to obtain the Adair properties from WAA and then to be in a position to distribute them to cities or colleges.

The League of Seven Cities, which includes Salem and other communities of the Adair region, tentatively had considered obtaining Adair buildings for veterans' housing.

Epstein's announcement Saturday stated that only Oregon allocations already made by FPHA went to the University of Oregon and the army engineers at Eugene, Reed college in Portland, and Eastern Oregon College of Education in La Grande. His FPHA district includes, besides Oregon, Alaska, Idaho, Montana, Washington and Wyoming.

Vote Defeats Plan to End Power Strike

Pittsburgh's striking power union workers voted more than two to one Saturday night against a management proposal to end the five-day-old strike which has crippled steel output, transportation and the water supply of several suburban communities.

On the west coast, new violence marked a state of emergency in the Hollywood movie strike, but a conditional AFL offer to postpone a threatened maritime strike after the Monday midnight deadline brightened the nation's labor picture.

Pittsburgh's Mayor David L. Lawrence said he would ask the power union to remove its pickets from the street car barns and bus garages. Transportation workers earlier had refused to cross the lines, bringing the city's transit system to a complete shutdown.

French Solons Approve New Constitution

PARIS, Sunday, Sept. 29 (AP)—The French legislature adopted a new constitution for the fourth republic early today by the overwhelming vote of 440 to 108.

The balloting, at 4 a. m. (10 p. m. Saturday, eastern standard time), came only a few hours before Gen. Charles de Gaulle was to make his tensely-awaited statement concerning his opinion of the new basic law of the nation.

De Gaulle, his friends have said, will speak directly to the French people and urge them to reject the charter in the referendum on the constitution to be held October 13.

This unpredictable factor placed the ultimate fate of the assembly's new constitution in doubt, for it was not clear how much strength De Gaulle could muster in his position if he flatly denounces it and urges that it be turned down.

The constitution received the votes of France's three largest parties—the communists, the socialists and President Georges Bidault's popular republican movement (MRP), which together represent about 90 per cent of the French electorate.

Police Plagued By Bad Checks

L. P. McCracken, who lives at the YMCA, pleaded guilty in Justice court Saturday to writing a check with insufficient funds and the case was continued until Monday for sentence. He was arrested Friday on a warrant signed by E. V. Gwaltney, who operates a grocery store at 1190 Center st.

Two fraudulent checks were reported to police in the last few days. A man signing the name Jack Wilks wrote a check without funds for \$2.75 to Walter Zessel company, 311 N. High st., and another signed Mrs. George R. Ham with Alice Johnstead as payee, was accepted by Star Transfer Co., 122 N. Liberty st. Neither were payable at their respective banks.

U. N. Scientists Say A-Bomb Can be Barred

LAKE SUCCESS, N. Y., Sept. 28 (AP)—Twelve international scientists agreed today that technically atomic energy can be controlled for peaceful purposes and put the issue of constructive use up to the world's politicians.

"We do not find any basis in the available scientific facts for supposing that effective control is not technologically feasible," they said in a 6,800-word report prepared for the United Nations atomic energy commission.

"Whether or not it is politically feasible is not discussed or implied in this report, nor is there any recommendation of the particular system or systems by which effective control can be achieved."

The scientists—representing every nation of the 11-member U. N. security council and Canada—said, however, that control can be done step by step.

Colonel Luper Visits Salem

Col. James R. Luper, former Salem resident who will go by plane Tuesday from San Francisco to China, where he will be a member of the military advisory group in China, was in Salem Friday and Saturday.

Appointed from the ranks of the regular army in 1935 by the late Senator Frederick Steiwer to attend West Point, Col. Luper commanded a B-17 Flying Fortress group in England during the war. He was a prisoner of the Germans for more than six months.

Col. Luper recently graduated from the command and staff college at Fort Leavenworth, Kans., after 10 months study in preparation for his new assignment.

\$130 Taken in 2 Night Thefts

Burglars took approximately \$130 from Bud's Place, 180 S. High st., and H. A. Hazel's adjoining barber shop Friday night, investigating police report. Of the loot, about \$80 was taken from Bud's and \$50 from Hazel's shop.
