# What one town found out about Juvenile Delinquency

This wasn't a crowded city or a factory town. It was a quiet country town that had never had any juvenile crime problem. That is, it didn't have UNTIL (because of the war) ...

The Boy Scouts, the Girl Scouts, and the Community House shut down. The folks who ran them had gone to fight or into war work.

Then a series of crimes broke out. They were traced to children of "good" families. Investigation showed "there was just no place for the kids to go for wholesome recreation."

Says LIFE MAGAZINE: "Experience shows that delinquency goes UP when recreational facilities go down."

Well, the youth-serving facilities won't go down in our town if you'll dig down to support our Red Feather services when the Community Chest volunteer worker calls for your contribution.

Give ... for the kids. Give ... for our town. Give ... because your heart will feel better.

Give ... because you're wise enough to want our youngsters to grow into citizens you can be proud of.

The expert and loving care that gets the child a fair, healthy childhood.

There's love in this picture, and security and happiness. Family members give thousands a better chance at the great American heritage.

Everybody gives... Everybody benefits
