How labor feels about the Salem Community Chest

THIS MONTH the citizens of our town are tasked to contribute to support the Community Chest.

All of us, as citizens and union members, have a personal interest in the success of this drive.

We have a personal interest because so many union members are already volunteer workers for the Red Feather services of the Community Chest. Union members are acting as Scoutmasters, Y workers, on the boards of various Red Feather agencies, and in many other capacities.

Many of us are working as volunteer solicitors on this campaign.

The Community Chest supports activities which are vital to the welfare of our children and to the well-being of the community as a whole. Therefore, this campaign must succeed.

All of us want to see the work of the Scouts and the Y's continued.

Because we want these services to continue, we urge all citizens and all members of Labor Unions to give—and give generously—to our local Community Chest.
