Oats Futures Sales Heavy

CHICAGO, Oct. 9-(AP) Shipping interests sold oats futures in fairly heavy volume today and the grain displayed a weak undertone, closing on losses extending to

dependent strength on a strong

dependent strength on a strong cash market.

Wheat was neglected throughout the session and closed ½-½ lower, January \$2.03¾, corn was ½ lower to ¾ higher, January \$1.40¾-¾, and oats declined 1½-1½, November 85-85½.

Selling of November oats was based on reports shippers were unable to obtain permits for railroad cars to move oats east during November. A heavy movement of wheat out of the northwest is contemplated during that month, according to trade reports.
