## "THE YOUNG IDEA" By Mossler

### Steel Demand Helps Market

NEW YORK, Oct. 21 (AP)—Mild demand for steel, reflecting forecasts of growing production, helped the stock market selective-ly today although dealings were the slowest in almost two months and numerous leaders failed to emerge from the minus column.

The direction was cloudy from the start with the ticker tape frequently halting. Support for the metals appeared in the final hour but without much expansion of activity this group failed to follow through and finished well under the best. Advances of fractions to a point or so predominated at the close. Transfers dwindled to 350,000 shares, the smallest for a full session since Aug. 26.

### Wheat Paces Grain Upturn

CHICAGO, Oct. 21 (AP)—A gain demand for wheat, reflecting a sharp upturn in all grains today. The advance wiped out the loss sustained Saturday, although final quotations were still well under those of a week ago.

Prospects of an early decontrol of flour and trade reports that commodity credit corporation had re-entered the cash wheat markets were the factors in the back of the bread cereal upturn. Corn was strong on a moderate advance in hog quotations.
