

# GOP Fights for 10 More Seats To Gain Control of U. S. Senate

By D. Harold Oliver  
Associated Press Political Reporter

WASHINGTON, Oct. 29—(AP)—The next senate will have at least 15 new faces no matter how the elections next Tuesday turn out. Six incumbents were defeated for renomination and nine others are not making the race.

Thirty-five senatorships from 34 states will be decided. The republicans hold 10 of them, the democrats 24, and the progressives one. The present senate lineup is 55 democrats, 39 republicans and the progressive.

The republicans need a net gain of 10 members if they are to regain the control they haven't held for 14 years. They claim a fair chance of achieving it. The democrats maintain confidently they will remain on top.

Best Chances Listed  
Republicans say they have their best chance for gains in New York, Pennsylvania, Ohio, Massachusetts, Missouri, Delaware,

West Virginia, Idaho, Nevada, Washington, Wyoming, Montana and Wisconsin. Seats contested in these states are now held by democrats except that in Wisconsin which is occupied by a progressive.

Maine has already reelected a republican, Owen Brewster, and two democratic candidates are unopposed, John J. Sparkman in Alabama and Theodore G. Bilbo in Mississippi.

4 for Unexpired Terms  
Of the 36 seats at issue this year, including Maine, 32 are for the full six-year term and four (Alabama, Idaho, Kentucky and Virginia) are for unexpired terms still having two years to run.

In addition, two elections are being held in Connecticut and Ohio for unexpired terms in the

present senate running only from election day until the new congress meets. California will choose another for the same period by means of write-in votes. Unless there is a special session, these winners will never sit in the senate, but will draw pay.

Here are major party candidates in the western state, with (x) denoting incumbents:

## Small Hits at Recession Talk

WASHINGTON, Oct. 29—(AP)—Civilian production chief, John D. Small today cautioned the nation against talking itself into a business recession.

He declared an industrial decline "is not inevitable" if labor and management use common sense, reasonableness and restraint.

Taking cognizance of predictions from some quarters that a recession may start within the next few months, Small told a news conference: "It looks like an atmosphere is being built up in thinking that way. But, a recession is not inevitable if we keep going as we are now. All this talk creates fears. If repeated enough times, people will begin cutting back, retrenching and won't go ahead with their plans and we will have a recession."

## Walnut Growers Seeking Pickers

Harried walnut growers rushed the Salem farm labor office with work orders for pickers Tuesday. Adverse weather has caused reluctance among regular workers to pick, labor office officials said, but the situation is now critical and pickers are needed if the walnuts are not to rot on the ground.

Labor office spokesmen said that growers have upped the wages from one-and-a-half cents per pound to an average of two cents. Transportation is furnished, but drive-out pickers can choose their area around Salem at will, officials said.

Wage controls would be retaining in at least a half dozen major key industries in which prices still remained under ceilings, probably including coal, this informant said.

**Don't you Believe it!**

Have you been told... That the proposed tax measure will NOT become property taxes?  
**Don't you believe it!**  
The truth is... Tax measures mean tax liens on your PROPERTY and ON YOUR INCOME, TOO!

Have you been told... That the tax measure can be financed by "surplus income taxes" and will NOT mean additional tax burdens?  
**Don't you believe it!**  
The truth is... The so-called "surplus income tax revenues" now in the State Treasury will pay for ONLY ONE THIRD OF THE FIRST YEAR'S TAX! After that sum is spent, we'd IMMEDIATELY start paying INCREASED INCOME TAXES and INCREASED PROPERTY TAXES, TOO!

Have you been told... That the proposed Basic School Bill will NOT add a new property tax?  
**Don't you believe it!**  
The truth is... The Basic School Bill proposes a NEW and ADDITIONAL tax of FIFTEEN MILLION DOLLARS!

Have you been told... That funds from the Basic School Bill will be used to reduce the local school board's tax?  
**Don't you believe it!**  
The truth is... Local school boards would be PROHIBITED from using any of the Basic School Bill's tax money to reduce local school taxes.

Have you been told... That the Basic School Bill will "equalize taxes" between large districts and small ones?  
**Don't you believe it!**  
The truth is... The Basic School Bill has NOTHING WHATSOEVER to do with equalizing assessment values.

## HERE'S THE PLAIN TRUTH!

Your living expenses are going UP! Your present taxes are going UP! Average salaries are going DOWN! Take-home pay is going DOWN! With income going lower, the State's income tax revenues will go lower, too. That means those tax measures must be paid for by increased property taxes. DO YOU WANT THEM? CAN YOU AFFORD THEM? Vote NO on all TAX MEASURES!
