Stocks End Good Week

NEW YORK, Nov. 2.—(AP)—The stock market today stepped out of its widest recovery week in three months with utilities and rails leading a last-minute upswing on expanding volume. The list had to contend with considerable profit cashing until the final quarter hour of the short session brought a resumption of bidding. Brokers, as throughout the week, credited demand mainly to growing Wall street political optimism, earnings, dividends and belief that more of a technical revival was likely. Many customers trimmed accounts owing to their intention of extending the weekend through Tuesday when exchanges will recess for the elections. Skepticism over wage disputes also was said to have accentuated conservatism. Gains of fractions to 2 or more points were well in the majority at the close. Transfers of 690,000 shares were the best for Saturday since May 11 and compared with 290,000 a week ago which was a low since Sept. 16, 1944. October showed avolume of 30,383,870 against 43,450,216 in the slumping month of September.
