Federal Taxes and Spending

Congressman Harris Ellsworth of Oregon's fourth district has a sensible approach toward the government's fiscal problem. Interviewed in Washington, he urges a survey to determine just how much government we need and what the expense of conducting it will be-and then to levy taxes to raise the needed revenues, Ellsworth expressed opposition to the proposal of a 20 per cent cut in income taxes.

From other members of the congress have come objections to Congressman Knutson's plan of an immediate cut of 20 per cent in personal income taxes. They think such a declaration is premature, and some say that we should keep up our taxes while the national income is high and use the surplus to retire debt. Others say we should first study what savings can be made in the federal budget before jumping in to cut taxes. Knutson is booked for chairman of the important house committee on ways and means, but he is not going to find smooth leaving only the housing adminissailing for his tax reduction plan.

We need not make too much haste in tax reduction. The be allocated to the most needed lifting of the excess profits tak was premature. It has enabled lifting of the excess profits tax was premature. It has enabled was contemplating following up some companies which had no reconversion problems to pile the abandonment of OPA with the up huge profits this year, far more than they need for return civilian production administration, on the investment or for reasonable reserves. If the excess profits tax had been cut to 60 or 65 per cent a lot of money devil-take-the-hindmost scramble, would have accrued to the government. As it stands the huge although usually the devil gets losses taken by some companies like railroads and motor manu- more than the hindmost in such facturers entitles them to refunds of excess profits taxes which an affair. will serve to cut down the yield on corporation taxes by large

Republicans have urged for a long time a balancing of the inspired by the government sugbudget. That seems within the range of attainment next year gesting Economic Stabilizer Steeland its accomplishment will help to assure soundness for our fiscal system. We need to start whittling down our huge debt. rectives, so urgent was deemed the Even new dealers who justified the deficits of the Roosevelt need for haste. era said we should use periods of prosperity to recoup our previous losses. That time is now. Before we rush in with tax cuts White House have thus begun to we should make sure our budget will be in balance with a wonder. Several peculiar little surplus to scale down our indebtedness.

In our program of retrenchment, reason must be exercised. tion to suggest dejection or per-Government is our biggest business. Its departments are pre- White House advisers or an insumably established in the public service. Radical action in clination to go too far. One source lopping off bureaus, simple as that sounds before an election, had quoted Paul Porter, the OPA will not prove so easy when services are studied. As Ellsworth said, there is great room for retrenchment. War-swollen agencies can be shrunken to postwar dimensions. But the job should be tle of champagne over the first done intelligently and prudently, to effect as great a saving soup kitchen. Some of the papers as possible without destroying services which the public deems have suggested Porter has become essential.

The current economies in capital expenditures are unfortunate because a defeated temporary, because the government merely is postponing the negative policy, such as he has adspending. If costs decrease then the government will be ahead vocated, could hardly be expected when the work is done. If it increases it will be behind. There is justification in postponing much work because of the infla- nomic crisis. Mr. Truman would tionary condition now prevailing, but the deferment does not have to get advisors who thought mean economizing in the current expenditures of government. there was a chance to succeed be-

Republicans in control of congress have firm control of the one with thoughts of possible sucpurse strings. The wisdom they use will be a measure of their cess. Such thoughts are being capacity to be entrusted with further power in 1948.

Big Nine to Participate

mean the matter of participation in the Rose Bowl game. The Pacific coast conference which stages talk around Wall street indicates the annual New Year's day event at Pasadena has made a tieup the financial bettors think we are with the Big Nine of the midwest on a five year basis, the bid perity. Not even the republican going to one of the Big Nine in the next three years and to one promise of an individual income selected by that conference in the remaining two years.

This eliminates Army, which has the champion team of the or prices. year. The deal eliminates southern schools, like Georgia which has bad a great team this year, and Alabama and Duke which interpreted the election returns have gotten the call in former years. Notre Dame, runner-up too deeply. While the prominent by a narrow margin, does not permit post-season play. The and highly regarded leaders cereastern schools like Harvard and Princeton and Yale sign off tainly can eb expected always to football with November.

The west has long wanted participation by the midwest are subject to pressure and influgreats where football is a prime sport. The bid this year prob- ence from some aides who might ably will go to Illinois or Minnesota, both good teams. Here the too much "for republicans" (realchoice lies between UCLA and USC at the moment. Whichever ly the country itself), but would teams are matched New Year's day the customers are sure of rather prove themselves right. a great game.

A Healthy Picture

The improvement of lighting on downtown Salem streets, tional impetus for an economy. a project talked about before, but interrupted by, the war, is Production Big Need a must on the agenda of civic progress, and the expiring city is restoration of production. The council does well to ready for its successor a comprehensive consideration of how to get it program to that end. Positive action on this and other plans, should dominate all jolicies-extoo, augurs well for the smooth and orderly transition to the clusively. OPA was abandoned in accord with that theory—belatedcity manager form of government. The present council appears ly on the eye of an election to determined not to mark time merely because its regime soon push out food. It did exactly that, will end. And the council-elect, led by Mayor-elect Elfstrom. Food and meat are now available. is just as forthrightly setting the stage for its ascendancy. The to remove all government controls picture is a healthy one.

The general extolling of motherhood, well warranted in so while degree of production has great a majority of cases, need not blind us to the fact that been achieved. If we need railway there are exceptions even in this great calling. Britain's labor cate as much steel as it can (degovernment, in fact, is facing that problem boldly and is doing ciding on the basis of supply and something about it. Women sentenced in court for neglecting need) to get as many cars as it their children are to be sent to school for training in homecraft throw the steel market open (a and parenthood. Their smaller children will be with them and sellers market, mark you), would their husbands can visit the school. The results should be in- not be in the public interest. teresting.

> Compulsory arbitration is urged asserted right to strike, even in the case of public utilities. Tried cessful. In desperation, however it may be attempted here.

Senator Ball of Minnesota i quoted as saying that he plans to introduce legislation to ban the closed shop. This is a keystone in the arch of labor union philosophy. Already the closed shop is under attack in the states. Florida has a law prohibiting it which now is being tested in the courts Nebraska adopted a constitutional amendment which prohibits "the denial of employment to any person because of membership or nonmembership in a labor organization. Arizona and South Dakota adopted amendments along similar lines.

The current demand for "fair employment practice" legislation can easily be extended to include protection of the "right to work," which now is denied by the twin methods of picketing to close down industry and the device of the closed shop. This protection might include prevention of mass picketing which denies ingress and egress at struck plants.

Other legislation which may be considered would be to put financial responsibility on unions for compliance with contracts; defining and banning of "unfair" labor practices by unions which would include jurisdictional strikes, secondary boycotts, sitdowns and quickie strikes. Reforms are needed within unions to permit greater democracy and prevent graft and racketeering under cover of unionism.

The task of writing new labor laws should be approached sanely and soberly with the primary purpose of serving the whole people. We need to end labor monopoly and labor union oligarchy, but we do not want to foster corporate monopoly or destroy the essential freedoms of the workers of the country.

BREAK-IN ATTEMPTED An attempt to break into the

State Tire shop at 710 State st., Tuesday, was reported to city police. A window was broken, but the establishment was apparently not entered, according to the report. LICENSES ISSUED
