### Woodburn Plans For New Parking Regulations

WOODBURN—Preparation of an ordinance restricting parking in the business district was authorized Tuesday night by the city council. Other business included the acceptance of the deed to additional lots donated by Frank Settlemier for his city park, the report of Joe Sowa, fire chief, matters pertaining to cooperation between the city and the new rural fire district, consideration of a request by the local American Legion post for a renewal of its lease on rooms in the city hall.

The proposed ordinance would restrict parking to two hours in the business district from 11 a. m. to 6 p. m. daily except Sundays and holidays. Affected would be both sides of Front street between Arthur and Lincoln streets and between Front and First on Lincoln, Grant, Hayes, Garfield and Arthur streets. Parking would be prohibited in all alleys in this district.

Preparation of the ordinance was authorized on request of a merchants' committee to facilitate shopping by local residents and rural customers. It is believed that elimination of long time parking would permit many more customers to find space for their cars in the shopping area.

### 26-Year High Set in Wheat

CHICAGO, Dec. 6—(AP)—A car of wheat sold at \$2.30 a bushel in the cash market on the Board of Trade today, establishing a new 26-year high, while futures of all grades encountered a firm demand. Government buying of wheat and corn was the major price support.

The wheat bringing the highest price since 1920 graded No. 2 red. This is wheat used in producing biscuits and cakes, not bread, and has been selling regularly at a premium over hard wheat. In 1920, cash wheat reached \$3.50 on this market.

Wheat futures closed 3/4-7/8 higher, January \$2.06 3/4, corn finished 1/4-1/8 higher, January \$1.33 3/4-3/8, and oats were up 3/4-7/8. December \$1 3/4-3/8. Profit-taking near the close reduced net gains in wheat, although corn and oats finished near the day's top.

Commodity Credit corporation buying again featured wheat and corn. The Kansas City office raised its price a cent a bushel on wheat for deferred shipment. With a permit system going into effect in the southwest Monday, traders believed supplies in commercial channels might dwindle.

Discussing the winter crop, Modern Miller, a trade publication, said, "All reports indicate that the condition at the present time is well above average and seldom has a crop gone into the winter with such a good outlook."
