Raney also reminded veterans James Marvin Bassett, by guardian, B. W. Bassett vs Arrow between 17 and 30 years of age that they could

week laid plans at the YMCA for a western Oregon "Stamp-ede" exhibit April 13 at the "Y" in observance of the 100th anniversary of the postage stamp in the United States.

Gilbert Sternes, president of the local society, said the exhibit is expected to draw entries from all of western Oregon and that invitations had been sent to the stamp clubs of Portland, Albany, Corvallis, as well as to individual collectors throughout the valley. Albert Burns, editor of Western Stamp Collector at Albany, will be principal speaker. Ed Payne, local stamp authority, was named general chairman for the exhibit, and Connell Ward and H. R. Robinson were placed in charge of exhibits. Mrs. Laura Alexander will have charge of refreshments and Joseph Weber and Carl Smith will be the welcoming committee.

The Salem club will print a special seal to be sent out during the exhibit to collectors, Sternes announced. He added that 25 to 30 frames had been entered in the exhibit already from Salem and that it was expected that an equal number would be entered from Albany and Portland.

Fire Danger Cited In Regard to Fuses

"People who wire around fuses in their homes or increase fuse capacity are asking for a fire.' Fred G Starrett Salem division manager of Portland General Electric, declared yesterday, Defective fusing and fuse substitution cause mose fires in winter as individuals more often overload circuits, Starrett said.

Another aspect of the situation, and one which caused ed and that some construction Publisher Stern to refuse to capitulate to the guild, was its prevailing high costs. trespass on the responsibilities of editing the news. This has been a matter of deep concern to editors and publishers who cation which received \$4,000,000 vi-w with alarm the tendency of the guild to dictate news policies, particularly in view of the slant of guild leadership construct one new structure durand opinion. The comment of the New York Times on the Phila- ing the first half of the next biendelphia experience is highly informing. To quote:

There is an element of Greek tragedy in the situation. In 1935 H was David Stern, then publisher of The Post in New York thity, who gave the Newspaper Guild one of its first closed shop-on se-called Guild shop-agreements and started it on its way The Guild at that time sought to represent only news deparment employes. But many newspaper publishers and executives who were used to dealing with unions and had done so amicably for years were shocked at this willingness to place in the hanvis of a single group, which was already taking positions in public attairs, the sole opportunity to write and edit the news.

Literal publishers conceded the rights of a union devoted as a barganning agent to the best interests of its members. Such has arways been the policy of this newspaper. But a social press are group was quite another matter. As such the political leade . of the Guild, and their aim to dominate the jobs of writing and editing of news were regarded with grave suspicion by sound newspaper men, those of the public who understood the trend and by the rival smions of the A.F.L.

If a charge of monopoly is now to be made it must be directed against this aspiration of some of the Guild's leaders. Fortunately, and in the main, they have not succeeded. We believe that the many good newspaper men in the Guild's ranks would oppose their drive for a monopoly in the expression of political opinion if they realized where it is leading. The Stern newspapers, indeed, were not crippled or destroyed by the Guild leaders' mesire to control their news policies. They were hammered down by economic blows, the last and most crushing directed by the Guild. But the moral stands. The Guild leaders who did this thing had further and more dangerous ambitions. We hope and believe that this catastrophe will be a beacon of warning to all members of a profession which, though it must live by profits, salaries and wages, is, and ought to be, dedicated to the public service.

The pathe will join in the concluding hope of the Times, that newspapers should be dedicated to public service, and that profits, salaries and wages must not be made the chief objective with the Rev. Dudley Strain ofof newspaper publication. Publishers need to remember this, and union leaders and members also.

Arthur Rodzinski will direct the Chicago Symphony orches- Indians to Hold tra starting next season. Rodzinski resigned from his post as conductor of the New York Philharmonic because he thought the management was interfering with the orchestra's artistic Chemawa Friday endeavors. He is recognized as a great conductor, and will have a good opportunity with the Chicago Symphony which Theodore Thomas directed for many years.
