**FORD**  
Offers the  
**Lowest Priced Cars**  
In Its Field!

The Ford three-window, six-cylinder business coupe is now back in production. The price has been reduced twenty dollars below the price which prevailed last fall when production on this model was temporarily suspended.

This reduction, together with those of January 15 ranging up to fifty dollars, makes the Ford business coupe and the two-door sedan the lowest priced cars in their field.

This is in keeping with Ford's policy of offering the greatest value at the lowest possible cost.

**FORD MOTOR COMPANY**
