

### Personnel for New School Authorized

(Story also on page 1)  
The state board of education, meeting in Salem Thursday to decide matters of policy in connection with the new vocational school at Klamath Falls, appointed Winston D. Purvine, Salem, school director and authorized employment of an assistant director, business manager, superintendent of student personnel, and supervisor of instruction.  
Under the business manager will be superintendent of buildings and grounds, supervisor of equipment, cafeteria manager. The business manager will get from \$260 to \$320 a month.  
Under the supervisor of student personnel, who will get \$400 a month, will be a student registrar, dormitory manager, and a man in charge of student testing and counseling.  
The supervisor of instruction, who also will get \$400 a month, will have supervision over the supervisor of trade and industries, supervisor of technical training, the instruction materials specialist, and the supervisors of business education, vocational education and vocational homemaking. Instructors will be paid \$335 a month.  
The following schedule of rents was adopted for students living at the school:  
Single students, \$11 per month; married students in apartments without cooking facilities, \$16; married students in apartments with cooking facilities, \$35; room for two students without cooking facilities, \$26. Heat, lights, water and garbage service will be provided.

### Cricketers Waiting At Depot Doors

ORDNANCE, Ore., May 29-(P)-Fears that Mormon crickets infesting this area might sweep through surplus war material in depot warehouses here were dispelled today and the fight was concentrated on keeping them away from green wheat fields. Cricket hordes were also reported at Pasco, Wash.

Col. Raymond Curtin said many of the advancing horde took shelter from the hot sun in cracks and crevices around warehouse doors and windows, but were not attempting to go inside where wool, soap and other items are stored.

### Blimp Due Over Salem

This 150-foot blimp, The Volunteer, is due over Salem June 16, 17 and 18 during a west coast flight for Goodyear Tire and Rubber Co. Recently returned to Goodyear from the U. S. navy which used it in the war, The Volunteer holds 125,000 cubic feet of helium gas.

### Five Arrested on Gambling Charge

Five men were arrested by city detectives on charges of gambling last night at the carnival in the state fairgrounds.  
Lewis Green of Santa Monica, Calif., charged with operating the game, was released on \$250 bail. Two carnival employees, Don Baldrige and Lie Ristick, were released on \$100 bail for gambling charges. Still in jail late last night on similar charges in lieu of \$100 bail were Marvin Harbaugh, 457 S. Commercial st., and Raymond Leonhardt, 2445 Adams st. They will appear in municipal court Saturday.

### Chinese Reds Stage Attack

NANKING, May 29-(P)-The struggle for Manchuria spread today to Pulantien, with 10,000 communists reported making a determined attack on that Chinese government position 45 miles northeast of Soviet-occupied Dairen.  
Pulantien was the place where government armies halted several months ago while awaiting the still-unfinished negotiations to take over the port of Darien from the Russians.  
Government dispatches did not say directly where the communist attackers came from, but the official Chinese Central News Agency charged that communists in Dairen were buying arms from "a certain nation."

### City Manager Places Order For Equipment

City Manager J. L. Franzen Thursday ordered two pieces of modern equipment as increases to the engineering department, granted by the 1947-48 budget.  
The city council authorized ordering the equipment in advance of the fiscal year beginning July 1 to expedite street work this summer. Another piece of new equipment, received Wednesday by the engineer, is a dump truck.  
Franzen said delivery on both of the machines would probably be within 60 days and that one, a specially designed loader with attachments to make it adaptable to other purposes, could be obtained by June 20.  
A street flusher carrying a 1,500 gallon tank will be Salem property in about two months at a cost of \$6,800. The flusher and tank will be built to specifications in South Bend, Ind., installed on the chassis chosen by the city and delivered here. A five-ton truck assembly will be required.  
Salem's present street flusher is small, with a 600-gallon capacity.  
The special tractor-loader to be here in June is built to turn in small arcs for convenience and can be fitted with a small bulldozer, crane or with the regular loading scoop which easily lifts, carries and deposits dirt or stone. It will cost \$5,600.

### Southern Pacific Strike Postponed

CLEVELAND, May 29-(P)-Headquarters of the Brotherhood of Locomotive Engineers announced today a strike on the Pacific coast, set for June 6, had been postponed, pending a mediation meeting in Washington on June 9.  
The walkout was scheduled against the Southern Pacific railroad and two of its affiliates, the Northwestern Pacific and the San Diego and Eastern railways.

### Nazi Widows To Face Trial

MUNICH, Germany, May 29-(P)-Bavaria's denazification ministry prepared tonight to bring to trial the widows of four high Nazi officials, three of whom died on the gallows at Nuernberg.  
Dr. Alfred Loritz, Bavarian denazification minister, announced the arrest today of Mrs. Hermann Goering on charges that she was a member of the Nazi party. She was placed in an internment camp near Augsburg.  
Loritz said orders also had gone out for the arrests of Mrs. Fritz Sauckel, mother of 10 children and widow of the Nazi labor boss; Mrs. Hans Frank, mother of five and widow of the Nazi governor general of Poland; and Mrs. Wilhelm Frick, mother of two and widow of the "protector" of Bohemia and Moravia.

### Hungarians to Lose Premier

BUDAPEST, May 29-(P)-A high Hungarian source said Premier Ferenc Nagy of the anti-communist small landholders party telephoned his resignation from his vacation resort in Switzerland today.  
The informant said Nagy had been "pushed from office" by the minority communist party, and pro-American Hungarians said it was a coup d'etat that spelled the beginning of a complete communist police state in Hungary.  
Near panic existed in Budapest's leading business circles tonight, and there was nervous talk of another inflation.  
There were reports the bourse would not open tomorrow and that there would be a run on the passport office.

### All-German Economic Board Set in Two Zones

BERLIN, May 29-(P)-The Americans and British announced today they had set up an all-German economic council in their merged zones to speed the task of making more than 39,000,000 Germans self-supporting. Gen. Lucius D. Clay, the American military governor, disclosed today. American informants said the council would have 54 popularly-elected members.

### \$300,000 Blaze Almost Traps 30

ELGIN, May 29-(P)-Damage from a fire which razed half a city block and almost trapped 30 Masons in their meeting hall last night was estimated at \$300,000 today.  
The fire broke out about 8:30, and by midnight had destroyed a pool hall, dance hall, dry goods store, radio shop, cannery office, three apartments, and the Masonic lodge hall.  
Lodge members, meeting on the second floor, clambered down firemen's ladders or managed to grope their way through smoky halls. No one was hurt.

### Georgia Girl Wins National Spelling Bee

WASHINGTON, May 29-(P)-A 14-year-old girl who has had only one teacher in all the eight years she has spent in a one-room Georgia schoolhouse today won the national spelling bee.  
Freckled, honey-haired Mattie Lou Pollard of Thomason, Ga., became the champion because she knows how to spell "maggoty" and "chlorophyll," as well as 50 other tough ones.  
It was no easy triumph. Dimpled, pretty Sonya Dodelo of Chicago, whose father is a Filipino scientist and whose mother is a Russian-born journalist, left the Philippines only two years ago. But she was right in there—until "maggoty" came along. She thought it was maggoty.  
Mattie Lou, who won sixth place in the national here last year, knew better. And when she also spelled another word, chlorophyll, as the rules provide, she became the champion speller of 6,000,000 school kids.  
Her teacher, grandmotherly Mrs. G. H. Phillips, a Georgia schoolmarm for 25 years, says Mattie Lou always has been a right good speller, far better than the other 23 children in the school.

### Eisenhower Refutes May

WASHINGTON, May 29-(P)-Gen. Dwight D. Eisenhower today denied Andrew J. May's statement that the general was "screaming" for more shells in 1945.  
May, former chairman of the house military committee, contends that was the reason he protested a war department cut-back on an eight-inch shell contract for a Garsson munitions firm.  
But Eisenhower testified today that the real urgency for shells was in 1944 and that the army's demand fell off sharply in 1945 as the war in Europe neared its close.  
Eisenhower testified at the trial of May and arms manufacturers Henry and Murray Garsson on bribe charges.

### Salem Laundry Safe Cracked

Experienced safe men knocked off the combination and picked the lock of the Salem laundry safe at 263 S. High st., and left with \$357.64 Wednesday night, investigating city detectives report.  
Entry was gained by breaking a window with rocks, police said. A. B. Craig, foreman at the laundry, discovered the crime when he arrived for work early Thursday morning.  
Detectives said they showed laundry officials how a window shade obscured the view of workings inside the office at night, so that even policemen cannot detect whether burglars are in the building. They were assured that this arrangement would be immediately changed.

### Voluntary Rent Raise Voted

WASHINGTON, May 29-(P)-The senate voted 48 to 26 today to permit 15 per cent rent increases where tenants agree to them in exchange for leases to run through 1948.  
It also voted to require the removal of rent ceilings in about 30 areas each month.  
The senate took these actions as a prelude to voting on a bill to extend rent controls, in such revised form until Feb. 29, 1948.  
The vote on extension was put over until next week.  
The amendment, which the house has approved in slightly different form, would permit voluntary agreements on increases not to exceed 15 per cent above the rent in effect for a particular property on Sept. 1, 1946.  
Both Sens. Gorton and Morse favored the plan.

### Delay Granted In Disposal of Camp White

WASHINGTON, May 29-(P)-The war assets administration announced today that advertising for bids on the hospital area at Camp White, Medford, Ore., has been postponed until July 2, extending the final disposition to July 31.  
The agency said it is "contrary to its general policy" to delay disposal of any surplus property but "in this particular instance the state of Oregon had evidenced an interest in acquiring the hospital for conversion and utilization as a state mental institution."

### Russians Win A-Control Point

LAKE SUCCESS, May 29-(P)-Russia gained a minor decision in the United Nations atomic energy commission today but the big issue of the veto in atomic control was still to be fought out.  
The Soviet edge came when the commission's working committee adopted unanimously a Russian-sponsored resolution reaffirming a general assembly decision that any international system of atomic control should operate "within the framework of the security council," where Russia and the other four big powers hold the veto.  
Until today's meeting, American Deputy Delegate Frederick H. Osborn had insisted he would reject such a resolution on the grounds that it was not clear and left the way open for the Russians to claim that all functions in the atomic field should be made subject to the veto.  
However, after being beaten on what he called a clarifying amendment, Osborn backed down.

### Men Needed For Dam Road

An order for 15 or 20 road construction workers at the Detroit dam site is listed with the Salem office of the state employment service, the office said Thursday.  
The work is to be on the road that is being re-routed around the proposed dam location. Wage is \$1.27 per hour. Orders for workmen are continuing to come into the office as the spring work season grows stronger, the office reported.

### Briefer Hunt Likely

ST. LOUIS, May 29-(P)-W. E. Crouch, chief game management agent of the U. S. fish and wildlife service, said today that duck hunters never again would enjoy long hunting seasons or big bag limits because of the rapid increase in the number of hunters in the United States.  
During a British food shortage in 1890, a law prevented manufacture of starch from wheat so that it could not be diverted for use as a hair powder or shirt-stiffener by the aristocracy.

### Hope Voiced for Reclamation Fund

WASHINGTON, May 29-(P)-Upon conclusion of a senate subcommittee's four-week hearing on the interior department appropriations bill, Chairman Wherry (R-Neb.) predicted today that it may restore the reclamation bureau's budget to near the \$145,952,000 request of President Truman's budget.  
The house cut the reclamation bureau budget sharply to \$67,717,600.
